FIFTEENTH CONGRESS

First Regular Session

House Bill No. 4366

Introduced by **HON. GIORGIDI B. AGGABAO**

EXPLANATORY NOTE

Telecommunications is as vital as our natural resources. And for the Philippines to cope with the growing demand for such services, we must open new doors to promote the upliftment and improvement of our present telecommunications system.

As embodied in Section 24, Article II of the 1987 Constitution, the State recognizes the vital role of communication and information in nation building. Explicitly, the State recognizes the establishment of communication and information facilities.

Indeed, for an archipelagic country with widely dispersed population and an uneven level of development, telecommunications services provide a unifying, uplifting and democratizing force.

Telecommunications Technology Solutions Inc. intends to do its share in improving and augmenting the present telecommunications system in the country. The company will avail of state-of-the-art and appropriate technologies that will allow the most effective and efficient delivery of its services to as many of our countrymen, especially in the countryside.

In view of the foregoing, approval of this bill is earnestly requested.
