EXPLANATORY NOTE

Problem on devolved health care system persist to this day, despite the mechanism established by the national and local government units.

Among the problems identified were: the non-implementation of the Magna Carta for Health Workers; delays and even non-payment of their salaries and benefits; and the diminution of funds intended for the delivery of health services thereby causing its fragmentation.

This Bill aims to address the flaws and issues raised against the decentralization of health services. In order to have a comprehensive and integrated health care delivery system as mandated by the Constitution of the Republic of the Philippines, **RE-NATIONALIZATION OF HEALTH SERVICES** is the only solution.

Hence, the immediate approval of this urgent measure is earnestly requested.
