

Republic of the Philippines
HOUSE OF REPRESENTATIVES

SEVENTEENTH CONGRESS
First Regular Session

House Bill No. 772

Introduced by **DIWA Party-list Representative Emmeline Y. Aglipay – Villar**

EXPLANATORY NOTE

Climate change is no longer just a mere political issue. It has already evolved into a moral issue for us all. As we have experienced the worsening effects of climate change over the past years, it has now become our collective moral obligation to ensure that we take actions to mitigate its destructive effects. Although we may be a considerably small nation who can only have so much contribution in resolving the global issue of climate change, this does not excuse us from not doing whatever we can to help combat this humanitarian concern.

Like most nations, our carbon emissions dominate the rate by which we are able to produce and replenish green resources. The continuous abuse of our forest reserves by big businesses does not help our cause either. With the passage of this bill, a re-filing of House Bill No. 784 filed by Rep. Gloria Macapagal Arroyo and Rep. Diosdado Macapagal Arroyo last 16th Congress, we are confident that we can effectively reduce the exploitation of our green resources.
