**EXPLANATORY NOTE**

In 2014, the Land Transportation Office reported that 8 million vehicles have been registered, 2.2 million of those vehicles account for those registered in Metro Manila alone.

The heavy influx of motor vehicles that ply the roads of Metro Manila has made the operation of parking facilities a highly lucrative business. The 8 million vehicles competing for scarce parking spaces have sparked rising demands for parking facilities. This however, spawned another problem: that of prohibitive parking costs that car owners have no option but pay.

This bill seeks to protect consumers by putting an end to the abusive collection of parking fees, and by making the operator of the parking facility liable for property loss or damage, without necessarily weighing down on establishments that profit from the parking enterprise.

Immediate approval of this measure is earnestly sought.
