EXPLANATORY NOTE

The State must provide for a long-term care program for our senior citizens. This is in recognition for their invaluable contribution to nation-building.

Presently, however, the unrequited care that is given to the elderly is only extended to the members of our own families. Those who have been abandoned and neglected by their loved ones find themselves unattended and helpless in their advance age.

This bill seeks to mandate the State to institutionalize a long-term care and services for our senior citizens. This will alleviate the living conditions of the elderly, including the unwanted and deserted.

This proposed bill was filed during the 16<sup>th</sup> Congress. However, it was not taken up due to time constraints. This bill is filed for the consideration of the 17<sup>th</sup> Congress.

Support for the enactment of this measure is earnestly requested.
