EXPLANATORY NOTE

The Constitution, Article II, Section 11 states:

“SECTION 11. The State values the dignity of every person and guarantees full respect for human rights.”

Likewise, Article XV, Section 4 provides:

“SECTION 4. The family has the duty to care for its elderly members but the State may also do so through just programs of social security.

Further, Article XIII, Section 11 provides:

“SECTION 11. The State shall adopt an integrated and comprehensive approach to health development which shall endeavour to make essential goods, health and other social services available to all the people at affordable cost. There shall be priority for the needs of the underprivileged, sick, elderly, disabled, women and children. The State shall endeavour to provide free medical care to paupers.”

Filipino family members have always cared for its elderly members. Given a choice, most Filipinos would want their elderly to remain with them. Unfortunately, majority of the elderly gradually lose their functioning ability and require additional assistance in the homes or elderly facility. However, the changing economic and social environment of the country wherein Filipinos go abroad to support their family, the decreasing Filipino family size and househelp, and increased life expectancy of elderly people require the State to step in to ensure that the special needs and requirements of the elderly Filipinos will be addressed.

The Province of Tarlac, which is classified as a first class province and has a total land area of 3,053.45 square kilometres, is situated in the center of the Central Plain of Luzon. It constitutes one percent (1%) of the total land area of the country.

Considering its size and location, the Province can provide the rural atmosphere that is needed to nurture the elderly and provide them with a restful environment.

This bill seeks to fill this need by establishing an elderly care and nursing complex in the Province of Tarlac.

VICTOR A. YAP
Representative, 2nd District of Tarlac
