HOUSE BILL NO. 166

Introduced by: Hon. Angelina "Helen" D.L. Tan, M.D.

AN ACT
ESTABLISHING THE COCONUT FARMERS AND INDUSTRY DEVELOPMENT TRUST
FUND AND PROVIDING FOR ITS MANAGEMENT AND UTILIZATION

EXPLANATORY NOTE

This bill comes at a critical time for the Philippine coconut industry. Its enactment is not only urgent but important. It is urgent because our coconut farmers have long been clamoring to see the purpose by which the coconut levy was created, which is to benefit the coconut farmers and the industry as a whole. This has been long overdue. It is important because a law that will govern the utilization of the coconut levy fund is primordial in ensuring that the fund would only be utilized for the benefit of the coconut farmers.

As a representative from one of the top coconut producing provinces in the country, I am keenly aware of the letter and spirit which was clearly enunciated in the January 24, 2012 decision of the Supreme Court. That is, "the coconut levy funds are public funds" and that "coconut levies are treated as special funds by the very laws which created them." Accordingly, "These shares shall belong to the Government, which shall be used only for the benefit of the coconut farmers and for the development of the coconut industry" (emphasis supplied).

Along these lines, and in consideration of President Rodrigo Duterte's veto message on the coco levy bill last Congress, I am filing this measure which aims to consolidate all assets and benefits emanating from the coconut levy, and create the Coconut Farmers and Industry Development Trust Fund to enable the coconut farming sector to address the serious concerns that it has been confronted with for so long.

Under the bill, the Trust Fund will consist of the Trust Principal and the Trust Income to be maintained for a period of 30 years or until the fund is fully utilized. This version is unlike in the vetoed bill which provides for a perpetual trust fund. The Coconut Farmers and Industry Development Trust Fund Committee will also be created and placed under the Office of the President in consonance with the President's veto message which states that the bill lacked "vital safeguards to avoid the repetition of painful mistakes in the past."

Among the key features of the bill, to name a few, are the allocation of a P10 billion initial trust principal as "jumpstart fund" to accelerate the development of the industry; annual allocation of at least P5 billion to be released for the programs and projects for the benefit of coconut farmers and workers; creation of an Ad Hoc committee to prepare every five years a medium-term plan of programs, activities, and projects which will be funded out of the Trust Fund; conduct of complete accounting and inventory of all Coconut Levy Assets by the Presidential Commission on Good Government; audit by the Commission on Audit on the inventory of the Coconut Levy Assets prepared by the Presidential Commission on Good
Government; and the privatization of coconut levy assets which are unnecessary or inappropriate for the government to maintain.

It is unfortunate that most of the coconut farmers during the time the levies were exacted are already approaching their twilight years. Hence, it is high time that the coconut levy funds be utilized for the benefit of the coconut farmers and for the development of the coconut industry.

In view of the foregoing, expeditious approval of this bill is earnestly sought.
