18TH CONGRESS
First Regular Session
HOUSE BILL NO. 182

Introduced by Honorable Michael L. Romero

EXPLANATORY NOTE

The republic of the Philippines recognizes the occurrence of floods throughout the whole year. Without knowledge, awareness or beyond the local region in which they occur, these flooding often do not receive the entry of efficient and urgent support that can follow large-scale emergencies or disasters.

To support these flooding-disasters and to provide initial frontline services before such emergency appeals are launched for large-scale flooding, it is imperative that the national government establishes a **National Flood Control Act**.

This House Bill seeks to create and establish urgent Flood Control measures and mechanisms. To enable all concerned and affected personnel, organizations to carry out their unique role after a flooding-disaster.

Thus, the early passage of this bill is earnestly requested.

MICHAEL L. ROMERO Ph.D.
