EXPLANATORY NOTE

Sports is an avenue for citizen engagement that has been recognized by the 1987 constitution as an important ingredient for national development. Article XIV Section 19 mandates the state to “promote physical education and encourage sports programs, league competitions, and amateur sports, including training for international competitions, to foster self-discipline, teamwork, and excellence for the development of a healthy and alert citizenry.”

It is imperative, then, that the state should provide adequate facilities and support to citizens who have shown potential and willingness to contribute to the development of the country’s sporting initiatives.

With significant efforts already taken to support the holistic development of our people, we believe that the Province of Bataan is one of the localities best suited to support this need.

Recognizing the Province’s potential, this bill aims to create a sports training center in the capital city of Bataan Province, the City of Balanga. The sports training center will serve as a modern training facility for both professional and amateur athletes not just in Bataan, but in the neighboring provinces as well. By establishing this sports training center, we will produce more athletes we can be proud of, not only within Bataan and Central Luzon, but in the county as a whole.

Approval of this bill is earnestly sought.
