AN ACT
PROVIDING FOR THE COMPREHENSIVE REGULATORY AND LEGAL FRAMEWORK FOR COLLECTIVE INVESTMENT SCHEMES

EXPLANATORY NOTE

The Philippines, in recent year has received a couple of credit rating upgrades, which were the output of a generally stable political situation, strong remittances from abroad and improving fiscal position. Hence, to further strengthen and improve economic stability, the government should be committed to implement stronger administrative reforms and pass identified priority legislative measures that will help ease the investments constraints and facilitate simplicity in doing business in the country.

One of these priority measures is the need to harmonize the regulatory and tax framework for all form of Collective Investment Schemes (CIS). Countries, including the United Kingdom, Japan, Australia, Korea and Singapore, have adopted a single law to regulate all types of CIS. Presently, the Philippines has various laws governing investment companies (mutual funds), unit investment trust funds (UITFs), and separate account funds or variable unit linked insurance products.

These investment products are basically the same but differ in regulatory requirements (regulatory arbitrage) and taxation mainly because of differences in their governing laws. This regulatory and tax arbitrage give rise to an uneven playing field which will prove unfavorable to the growth of the industry. More importantly, such arbitrage will result in uneven levels of protection to the investing public.
Establishing a comprehensive regulatory and tax framework for all CIS products will eventually lead to a more competitive environment for the CIS industry and provide enhanced and uniform levels of protection to the investing public.

In view of the foregoing, approval of this bill is earnestly sought.
