EXPLANATORY NOTE

The Public Service Act was passed in 1936 to govern public services and with the fast-changing pace of the economies of the world, there is already an urgent need to update the provisions of this law to avoid confusion between public utility and public service and its scope.

The intent of this bill is to provide a clear definition of “Public Utility” that will include three (3) vital sectors: 1.) Distribution of Electricity System as defined by Section 4(n) Republic Act No. 9136; 2.) Transmission of Electricity System as defined by Section 4 (ccc) of R.A. No. 9136; and 3.) Water Pipeline Distribution System or Sewerage Pipeline System as defined by Republic Act No.6234, as amended, and Presidential Decree No. 198, as amended.

The National Economic and Development Authority (NEDA) Secretariat in consultation with the Philippine Competition Commission (PCC) shall continue as the recommending expert on the classification of a person, business or service as a public utility. Existing administrative agencies will continue to be governed by their respective charters consistent with existing statues.

This bill during the 17th Congress was approved on Third Reading by the House of Representatives on September 8, 2017 and was transmitted to the Senate on September 11, 2017 for its appropriate action.

The support of the Members of Congress for the immediate approval of this measure is earnestly sought.
