EXPLANATORY NOTE

Our Overseas Filipino Workers are considered modern heroes. Their remittances to their families contribute largely to our economy. Their indispensable role cannot be taken for granted. Because of this, aside from their skills and experiences, it is important that they possess good health. Long hours of work coupled by emotional stress raise the risk of weakness and ill health.

It has become imperative for the State to protect OFWs, their interest and well-being, including their families and dependents through the provision of social and welfare services. It will be part of an integrated and comprehensive approach to health development. It will endeavor to make essential goods, health and other social services available to all people at affordable cost.

This bill seeks to establish a special hospital for OFWs and their dependents, to be supervised and controlled by the Overseas Workers Welfare Administration (OWWA).

In view of the foregoing, approval of this bill is earnestly sought.
