EXPLANATORY NOTE

It is high time to create a specific department in the government which will promote the overall welfare and cater to the specific needs of our migrant workers and their families.

At present, we have more than 12 million OFWs scattered all over the world. Most of our Filipino migrant workers opted to work abroad because it is their only way to provide a better life for their families. According to the Central Bank, our migrant workers remit an annual average of about Twenty-five Billion Dollars ($25,000,000,000.00). However, despite the valued recognition from our government on the significant contribution of our Filipino migrant workers to our economy, our Filipino migrants still feel neglected. What our migrant workers need more than the recognition and praises are government institutions, systems, and mechanisms that can effectively and efficiently provide assistance to the millions of Filipinos living and working abroad. Many of our migrant workers abroad can only rely on the organs of the Philippine government therein as their last resort and only means of receiving justice and aid.

While the government has established the Philippine Overseas Employment Administration (POEA) and the Overseas Workers Welfare Administration (OWWA) in order to protect and enforce the welfare and rights of our Filipino migrant workers, these institutions have not proven to be enough. In spite of their best efforts and those of the Department of Foreign Affairs, these agencies are prompted with various challenges to consistently and efficiently cope with the increasing number and widening scope of OFWs in need of assistance. Part of this is due to the many disparate entities, which have overlapping jurisdictions and functions relating to OFWs that at times lead to confusion. With the current set-up, the responsibility for our OFW’s various issues and concerns cut across different departments and agencies, which may lead to forward passing, finger-pointing and worse inaction. The most disheartening part, however, is when an OFW’s life is at stake and our existing agencies were unable to properly and promptly give them support and assistance.
Given the considerable number of Filipino migrants working and living abroad with various concerns and problems, the government considers as one of its top priorities the creation of an exclusive government institution for our OFWs and other Filipino migrants abroad – the Department of Migrant Development (DMD) or the Department of OFW. More than their contribution to the Philippine economy, our OFWs are considered as one of the most vulnerable citizens, who are in need of immediate assistance and dependable protection.

This Bill, a re-filing of House Bill 3255 of DIWA Party-list filed during the 17th Congress, aims to create the Department of Migration and Development. This legislative measure aims to create an empowered Department for our OFWs, which shall have the exclusive, unified and coherent function to protect the welfare, enforce the rights, provide adequate support; and give assistance to our Filipino migrants working and living abroad as well as their families in the Philippines.

The proposed Department shall, among others, develop, implement and improve coordination with other countries where Filipino migrants are present and monitor foreign developments to ensure the most reasonable working conditions for the OFWs to create a proactive approach in providing assistance to them especially in times of natural calamities and potential and apparent war and civil unrest.

Likewise, it shall promote, develop, and monitor the continuing education, training and qualification, availability and deployment of OFWs and coordinate with concerned agencies for training and education to attain global competitiveness for our OFWs.

Under this legislative measure, the POEA and OWWA will be attached agencies to the Department for policy and program coordination. The creation of the Department will improve interagency coordination and communication since an inter-agency coordinating Council on Migration and Development shall be created. Under the purview of the said Council are death row cases involving blood money, terrorism, drug-trafficking, human trafficking as well as large-scale illegal recruitment cases.

More importantly, this bill seeks to create the P1-billion Special Assistance Revolving Fund for Filipino Migrants, including both documented and undocumented. It will be used for emergency repatriation; medical expenses; immigration penalties; legal assistance; payment of blood money; humanitarian assistance to families left behind; scholarships for children of Filipinos overseas; maintenance and operational expenses including capital outlay for the establishment of One-Stop Migrant Processing and Assistance Centers (OSMPAC) in all major capital towns and cities nationwide.

The OSMPAC aims to provide prompt, efficient, vital and relevant services to migrant Filipinos and their families, which includes passport and authentication services, acquisition of government clearances and permits, and validation of overseas job offers. The Department shall not only address the concerns of our OFWs abroad but also the whole cycle of migration – pre-departure, migration proper and repatriation and reintegration. Our aim is to strengthen the repatriation and reintegration services for migrant Filipinos to facilitate their re-entry into their respective communities.

Creation of a Department of Migration and Development (or a Department of OFW) does not promote migration. Being a migrant worker remains a temporary phase for our OFWs.
hence while they are in the migration phase we should provide them all the necessary support and assistance in the most effective and efficient manner so that when they finally decided to come back they will always have a home in the Philippines.

With the foregoing consideration, I earnestly hope the approval of this bill.
