Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

EIGHTEENTH CONGRESS
First Regular Session
House Bill No. 753

Introduced by HON. ROZZANO RUFINO B. BIAZON

EXPLANATORY NOTE

This bill basically seeks to amend Republic Act No. 9184, otherwise known as the Government Procurement Reform Act of 2003. The amendments being proposed take into consideration national security as a major factor in the procurement of defense articles, services and infrastructures by the Department of National Defense (DND) and the Armed Forces of the Philippines (AFP) pursuant to Republic Act No. 7898, as amended, otherwise known as the AFP Modernization Act.

Republic Act No. 9184 was enacted to promote the ideals of good governance in all units and instrumentalities of the government. Its passage was hailed as a milestone that marked the government's commitment to reform the country's procurement system. There are however certain provisions of RA No. 9184, with all their noble intentions, which adversely affect, or even compromise, national security interest and the national defense program.

The principles of procurement as expressed in RA 9184 unwittingly expose the country's defense plans and arms-acquisition strategies, and laid bare the country's defenses against those who may wish to sow harm and ill-will. The resurgence of terrorism and non-state and state-sponsored terrorist groups resulted in the unabated proliferation of illicit trades in arms and munitions, making the country's defense acquisition system vulnerable to unscrupulous arms dealers and suppliers, and the country as a patriarch nation to its defense allies and other peace-loving nations which provide enough legislative protection against such practice. Procurement of badly needed defense articles, services and infrastructure projects are likewise unnecessarily delayed by the vagaries of procurement procedures under the present provisions of RA 9184.

It is therefore proposed that certain provisions of RA 9184 be amended to balance the imperatives of national security with the noble intentions of sound procurement enshrined in the said law, without sacrificing the ideals of good governance.

For these reasons, immediate approval of this bill is earnestly sought.
