EIGHTEENTH CONGRESS
First Regular Session
House Bill No. 800

Introduced by HON. ROZZANO RUFINO B. BIAZON

EXPLANATORY NOTE

This bill seeks to amend Republic Act No. 10863 (RA 10863), otherwise known as the “Customs Modernization and Tariff Act,” by proposing to include a new provision that would allow the Bureau of Customs (BoC) to use part of its income for its modernization program.

The passage of RA 10863 is laudable as it updated the Tariff and Customs Code of the Philippines to pave the way for reforms and the modernization of the Bureau of Customs. RA 10863 is envisioned to transform the BoC into an efficient and effective agency with the wherewithal to carry out its primary mandate.

However, the achievement of this vision would not be possible if the Bureau would be stymied by obsolete or lack of equipment and modern information and technology systems. In order that the BoC may be given more leeway to pursue its modernization in this respect, it is respectfully submitted that it should be allowed to use part of its income. In this manner, said agency would hopefully be able to move faster in modernizing its equipment and information and technology systems.

In view of the foregoing, early passage of this bill is earnestly sought.
