HOUSE BILL NO. 1263

Introduced by HONORABLE LUIS RAYMUND F. VILLAFAUERTE, JR.

EXPLANATORY NOTE

To serve and to protect is the motto of the Philippine National Police (PNP). As the primary law enforcement agency of the land, the PNP has been reposed with utmost trust and confidence by the State and its people to maintain peace and order, as well as ensure the safety and security of every Filipino. Indeed, it is a tall order to fulfill. It is also a great privilege that demands nothing short of the sacrosanct observance of standard protocols mandated not just by the rules of police engagement, but also by the laws of the land - foremost of which is the Constitution.

A few months ago, Kan Lloyd Delos Santos was gunned down by alleged police authorities in what appeared to be an anti-illegal drugs operation in Caloocan City. The dust has not yet settled when the same Caloocan City Police again faced media scrutiny for the death of Iskolar ng Bayan 19-year-old Carl Amaiz after an alleged foiled taxi robbery-holdup and police. Carl's alleged accomplice, 14-year-old Reynaldo "Kulot" de Guzman's lifeless body would be discovered 100 kilometers from Caloocan, stabbed 30 times and floating in a river. News of their deaths instantly flooded all media platforms and caused nationwide alarm.

The question stands- are the police being judicious in their sworn duty to serve and protect? This bill seeks to finally address this concern with the aid of science and technology by requiring police forces, especially those who take part in police operations, to wear body cameras which will the entire operation, and store the same file for at least three (3) years for all legal intents and purposes it may serve.
The installation of body cameras on police vests is a recent international development in law enforcement. In fact, early this year, the United States of America (USA) New York City and Washington City police departments, some of the largest in the city police forces in the world, started requiring their policemen to wear body cameras on duty. Several footages have already shown controversial material, some terribly incriminating against the police. While this development in new, US authorities are optimistic that this practice will compel their law enforcement authorities to strictly abide by protocol and laws. The same is the fervent hope of this representation.

By requiring every police officer on duty and/or engaged in police operations to wear a body camera, and by penalizing his failure to do so, this bill aims to curb police abuses of all sorts. The police forces are reminded that while their authority is great, the responsibility to always act honorably and within the ambit of existing standard operating procedures is never dispensable. In every case involving alleged police abuse, mishandling, or brutality, the audio-visual recordings shall be presented and studied by the court/s to determine the truth. Any misdeed on the part of the police forces shall be dealt with accordingly.

The people deserve to know the truth. Erring policemen must be held accountable. There is no injustice worse than that caused by the very hands of the State. In consideration of the foregoing premises, the passage of this bill is urgently sought.
