Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

EIGHTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 1312

Introduced by Honorable Wes Gatchalian

AN ACT
INSTITUTING INCLUSIVE EDUCATION AND ESTABLISHING
LEARNING RESOURCE CENTERS FOR CHILDREN AND YOUTH
WITH SPECIAL NEEDS IN ALL PUBLIC SCHOOLS DIVISIONS,
PROVIDING FOR STANDARDS AND GUIDELINES, AND
APPROPRIATING FUNDS THEREFOR

EXPLANATORY NOTE

Estimates from the Department of Education indicate that as of
SY 2016-2017 there are approximately 303,109 Filipino children in
public schools with special education needs. These are Filipino
children who are often unable to adapt to regular schools. Physical
(e.g. deafness, blindness, orthopedic impairment), cognitive (e.g.
autism, intellectual handicaps), psychological (e.g. anxiety disorders,
attention-deficit / hyperactivity disorder), and/or communication (e.g.
speech impairments, speech-based developmental disorders)
disabilities prevent them from fully participating in regular schools.
Moreover, the regular schools, whether public or private, are often
incapable of providing these children with the care, attention, and
guidance that they require for the development of their physical,
cognitive, and social skills.
In order to provide services to as many Filipino children with special needs, the government needs to build upon the existing infrastructure of its national public school system. This could be done by establishing *Inclusive Education Learning Resource Centers* in all public schools divisions nationwide. The SPED Centers shall function as a resource center that shall assist in promoting inclusive education to capacitate regular schools to effectively handle the needs of children and youth with disability. Each center must likewise be equipped with the facilities and personnel necessary to provide care and instruction to children and youth with special needs, specifically special education teachers and other specialists.

Presidential Decree No. 603, otherwise known as the Child and Youth Welfare Code, states that every child has the right to a well-rounded development of his personality to the end that he may become a happy, useful, and active member of society--a gifted child must be given the opportunity and encouragement to develop his talents; the emotionally disturbed or socially maladjusted child must be treated with sympathy and understanding and be entitled to treatment and competent care; and the physically or mentally handicapped child must be given the treatment, education, and care required by his particular condition. Furthermore, every child has the right to an education commensurate with his abilities and to the development of his skills for the improvement of his capacity for service to himself and to his fellowmen.

Given the current setup this would mean that, as of SY 2016-2017, there were around 303,000 children with special needs enrolled in public elementary and secondary schools who may have not been provided with the needed education and care. Thus, much remains to be done in addressing the gap with respect to the provision of special education in the country.
In view of the foregoing, support for the passage and approval of this legislation is earnestly sought.

WES GATCHALIAN
