EXPLANATORY NOTE

The proposal seeks to update the professional regulatory law to govern the practice of occupational therapists in the country. Since 1969, Republic Act 5680: An Act Creating the Board for Physical Therapists and Occupational Therapists has been the basis for its regulation and has never been amended to respond to current global trend and national development.

Occupational Therapy (OT) is a separate and distinct health profession from Physical Therapy (PT) by definition, scope of practice and educational requirements. Occupational Therapy has its own professional association, the Occupational Therapy Association of the Philippines, Inc. (OTAP), now Philippine Academy of Occupational Therapists, Inc., which is recognized by the Professional Regulation Commission (PRC) and duly registered with the Securities and Exchange Commission (SEC). The organization is well recognized as a full member of the World Federation of Occupational Therapists (WFOT) since 1968.

Upon the implementation of ASEAN MRA’s which include health professionals, the already highly marketable Filipino occupational therapists (more than 3000 as of the last OT licensure examination) will be further catapulted to overseas employment. Global demand tempered by national and regional economic constraints, new immigration laws, and international competition is fast requiring more quality in health care professionals, including occupational therapists.

Apart from this concern, there is an increasing and continuing local demand and continued shortage of occupational therapy services due to the increasing prevalence of various developmental disabilities (e.g. Autism, Attention Deficit Hyperactivity Disorder & Learning Disabilities) and a burgeoning elderly population. Occupational therapy also has a vital role in disaster preparedness and response as well as with working with those at risk for disabilities (e.g. victims of abuse/neglect, children born prematurely or low-weight at birth, children born to mothers with substance abuse disorder or diseases such as HIV/AIDS).

Most importantly, the current mandate of your service-oriented administration regarding the Philippine Health Agenda, outcome-based education, as well as professional qualifications framework can be considered as major changes that the OT profession needs to respond to.
Accordingly, it is imperative that occupational therapists align regulatory functions and professional standards based on the changing healthcare needs both locally and internationally. Professional standards and competencies among occupational therapists must be globally competitive and at the same time nationally responsive.

In short, the bill simply aims to upgrade and update the competence, knowledge, skills and attitude of the occupational therapists practicing in the Philippines to make them globally competitive, socially responsive, and nationally accessible to Filipino children and persons with disabilities.

In view hereof, approval of this bill is earnestly sought and recommended.

HOUSE BILL NO. 1457

Introduced by Representative Divina Grace C. Yu

AN ACT
REGULATING THE REGISTRATION, LICENSURE, AND PRACTICE OF OCCUPATIONAL THERAPY, PROVIDING FUNDS THEREFOR AND FOR OTHER PURPOSES

ARTICLE I
GENERAL PROVISIONS

SEC. 1. Short Title of Act. — This Act shall be known as "The Philippine Occupational Therapy Law of 2019".

SEC. 2. Statement of Policy. — The State recognizes the importance of occupational therapists in nation building. Hence, it shall develop and nurture competent, virtuous, productive and well-rounded occupational therapists whose standards of practice and service shall be excellent, world class and globally competitive through inviolable, honest, effective and credible licensure examinations and through regulatory measures, programs and activities that foster their continuing professional growth.

SEC. 3. Definition of Terms. — As used in this Act, the following terms shall mean:

a) Occupational therapy - is a client-centered health profession concerned with promoting health and well-being through occupation. The primary goal of occupational therapy is to enable people to participate in the activities of everyday life. Occupational therapists achieve this outcome by working with people and communities to enhance their ability to engage in the occupations they want to, need to, or are expected to do, or by modifying the occupation or the environment to better support their occupational engagement.
b.) The Scope and Nature of the Practice of Occupational Therapy — shall embrace, but is not limited to, the analysis and application of purposeful and meaningful activities specifically directed to occupational performance in the areas of self-care, work, play, and leisure. Reference to occupation is in the context of the individual’s goal-directed use of time, energy, interest, and attention. Upon referral, occupational therapists interpret and intervene or address problems impeding functional or adaptive performance. The purpose is to prevent limitations in participation, and to promote, maintain, or restore occupational performance, health, and psychosocial wellbeing. Occupational therapy may be part of the health and/or social services in hospitals, community settings such as residential, vocational, and leisure centers, schools, day programs, private agencies, the academe, clinics, the work place and other organizations which provide preventive or health promotive services.

c.) Occupational Therapist — refers to a person who is a holder of a valid registration and professional license issued by the Board of Occupational Therapy and the Professional Regulation Commission, and who is legally qualified to practice occupational therapy in the Philippines pursuant to this Act.

ARTICLE II

CREATION OF THE PROFESSIONAL REGULATORY BOARD OF OCCUPATIONAL THERAPY
