EXPLANATORY NOTE

The passage of this bill seeks to amend the RA 8981 or the Professional Regulation Commission (PRC) Modernization Act of 2000, by increasing the powers of the PRC to regulate the establishment and operation of licensure examination review centers and similar entities.

The State has the mandate to protect the right of all citizens to quality education at all levels and shall take appropriate steps to make education accessible to all (Section 1, Article XIV of the 1987 Constitution). Pursuant to this provision, the State has the obligation to ensure and promote quality education through the proper supervision and regulation of the licensure examinations given through the various Boards of Examiners under the Professional Regulation Commission.

At present, there exists no regulatory framework or mechanism that oversees and administers the establishment and operation of review centers and similar entities. The recent cases of cheating, fraud, and estafa involving review centers have led to unfavorable effects to the various professions, students, professionals, and the public interest and welfare, in general.

There is a prevailing need to protect the public against substandard review centers and unethical practices committed by some review centers. This can only be achieved through a regulatory framework by the PRC, which is best equipped in enforcing the establishment and operation of review centers and similar entities.

The bill was filed in the 15th Congress but for lack of time, its progress was halted at the committee level. In light of all these circumstances, the swift passage of this bill is earnestly sought.
