Public school teachers are among the most underpaid professionals in this country, given their workload and role in the society. In 2018, the gross basic salary of a public school Teacher I amounts to P20, 179 only, thus a Filipino teacher is one of the lowest paid teachers in Asia. Further, the said monthly gross basic salary is barely enough to meet the requirement of a decent living that the National Economic and Development Authority estimated at P42,000 for a family of five.

More so, our public schools have failed to attract the best and the brightest graduates from the top colleges and universities because of low salary levels, preventing our public education system from benefiting from the knowledge and expertise of outstanding teachers.

Further, the recent work policies of the Department of Education demanded greater time and efforts from the public school teachers. But despite the workload of the teachers they continue to perform their duties beyond the legal working hours because of their passion to give knowledge to the younger generation.

In this regard, this bill seeks to raise the minimum salary grade level of teachers from the current Salary Grade 11 to 19. With this increase in salaries, more qualified and competent educators will be attracted to teach in public schools. Definitely, this will motivate our teachers to strive for excellence in their field and thus, improve the quality of education in the public school system.

In view of the foregoing, the passage of this bill is earnestly sought.
