Republic Act 762 creates the Cebu Port Authority with the power to "manage, administer, operate, maintain, improve and develop, coordinate and otherwise govern the activities of all the ports" in all "seas, lakes, rivers and all other navigable inland waterways within the Province of Cebu including all other highly urbanized cities which may hereafter be created therein."

The power of the Authority is vested in a Commission composed of the Secretary of Transportation and Communications or his duly designated undersecretary as Chairman, a Vice-Chairman and five (5) other Commissioners. These other Commissioners are appointed by the President of the Republic of the Philippines representing ship owners and shipping operators, cargo-handling, labor sector and the business sector. The law fails to provide for representation from the local government units in whose territorial jurisdictions the port facilities governed by the Authority are located.

Thus, while the commission is vested with the power to determine policies affecting each and every inhabitant of the Province of Cebu, including the highly urbanized and independent component cities, on a matter imbued with the highest public interest, representation is denied in the determination of such policies.

While local government units have the duty, under section 16 of the Local Government Code, to ensure public health, safety and convenience – in short, the general welfare – they are not represented in an authority that has almost plenary powers over facilities where public health, safety and convenience should be ensured.

To the contrary, and quite ironically, sectors with vested, pecuniary interest in operation of port facilities – namely, ship owners and shipping operators, cargo-handling, labor sector and the business sector – are more than adequately represented in the Commission.

There is a need, therefore, to correct the unbalanced situation by ensuring local government representation in the Authority. This bill, if enacted into law, will further improve coordination between local government units and the Authority in terms of, among others, ensuring public health, safety and convenience, infrastructure development and support, legislative support for policies and programs of the Authority, and revenue-generating activities for their mutual benefit.

The early passage of this bill, therefore, is urgently sought.
