Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

EIGHTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 1752

Introduced by HON. LUIS RAYMUND "LRAY" F. VILLAFUERTE, JR.

EXPLANATORY NOTE
The glaring truth is — the state of public education in the Philippines is grim and
subpar compared with most of our neighbors in Asia, and especially with the western
world. This bill keys in on the need to legislate a uniform size of classroom or fixed
classroom to student ratio in our schools to improve the situation of public education
in the country.

The Department of Education (DepEd) recorded the current classroom-student ratio
in public elementary schools at 1:34 on average, and in public high schools at 1:45.
The improvement is attributed to the shifting method where classes are now held in
three shifts daily. Among the provinces and cities, worst off are Sarangani at 66
students per classroom, Sultan Kudarat at 63, and Tacurong City at 62.1 Big classes
take rigorous physical and professional toll on teachers, result in impersonal learning,
and frame a disruptive learning environment for our students.

This bill institutionalizes an ideal class size of no more than 35 enrolled students. Any
class exceeding 35 students up to a maximum of 50 students shall be considered a
large class. Teachers of large classes shall receive an honorarium equivalent to one
percent (1%) of their daily rate for every student in excess of 35. In no case shall a
class size larger than 50 enrolled students shall be permitted.

We recognize the problems that beset our education sector, and continuously strive
to make the situation better for our teachers and students alike. Under this bill, an
amount of five billion pesos is allotted to ensure its efficient and successful implementation.

In consideration of the foregoing, the passage of this bill is earnestly sought.
