EXPLANATORY NOTE

Classroom shortage remains a burden on the education system in the country, affecting those from highly-populated areas to the rural schools. Despite the increase in the Department of Education’s budget, the additional funding is still unable to cope with the current demand\(^1\) as well as increase in the number of enrollees expected in the coming years. The agency plans to tackle this problem through “creative” strategies\(^2\) such as high-rise school buildings and school communities outside urban centers. However, plans would fail to come to fruition without support from the State.

This bill intends to improve the levy and use of the Special Education Fund (SEF). The SEF is collected from the additional 1% tax on real property established under Republic Act No. 7160, or the Local Government Code. This bill proposes to amend the said RA to grant municipalities the power to levy and collect SEF. This intends to empower the Local Government Units and the local school boards and help support the funding problem for classroom shortages. The bill also proposes to expand the use of the SEF for the payment of honoraria for volunteer school teachers and use the SEF as payment or collateral for loans, debts or credits from lending institutions.

The approval of this bill is earnestly sought.
