HOUSE OF REPRESENTATIVES

House Bill No. 1853

EXPLANATORY NOTE

This bill seeks to mandate each city or municipality to create, within its jurisdiction, a River Development Authority to preserve, protect and develop the rivers, river systems and natural waterways.

The Philippines has numerous principal rivers and river systems from Batanes to Tawi-Tawi. Many are vanishing or dying, however, due to deadly chemicals or non-biodegradable waste being dumped on these rivers or waterways. Thus, the threat of extinction and degradation.

While a number of laws for the preservation and rehabilitation of rivers have been enacted, enforcement by local government units is weak. The government must concentrate its resources and capabilities on creating a central agency in each local government unit to implement the laws and promote the development of rivers, river systems and natural waterways.

In view of the foregoing, approval of this bill is earnestly sought.
