House Bill No. 1871

EXPLANATORY NOTE

The scarcity of affordable housing affects all sectors of society, especially our public school teachers. An independent survey revealed that public school teachers have no homes to call their own.

Majority of our public school teachers cannot afford to purchase their own homes at market prices since they earn a gross monthly income of P10,000 or less. In addition to this, more than 20% of our public school teachers have unemployed spouses, and thus, bear the burden of providing for their families.

There had been efforts to solve this problem by providing for a special housing facility through the state pension fund. However, its implementation never fully materialized. Thus, it is imperative that we provide for a stable housing program for our teachers through legislation.

This bill seeks to institute a housing program for teachers by providing funds through loans at affordable interest rates and long-term repayment period. It also seeks to involve the private sector in providing housing units exclusively for teachers through the grant of fiscal incentives.

In view of the foregoing, the passage of this bill is earnestly sought.
