EXPLANATORY NOTE

Article XIV, Section 5 (4) of the 1987 Philippine Constitution provides that: "The State shall enhance the right of teachers to professional development. Non-teaching academic and non-academic personnel shall enjoy the protection of the State." Likewise, Article XIV, Section 5 (5) states that: "The State shall assign the highest budgetary priority to education and ensure that teaching will attract and retain its rightful share of the best available talents through adequate remuneration and other means of job satisfaction and fulfilment.'

Based on global competitiveness indices, we have been rated poorly in terms of quality of basic education and quality of science and math education. This is compounded with the dwindling number of qualified science and math teachers by the brain drain phenomenon. Since 1990, more than 12,000 science and mathematics teachers left the Philippines to seek better opportunities in the United States, Canada, and other countries. The lack of qualified science and math teachers leads to the practice of assigning non-science teachers to teach these subjects. The inadequate preparation of teachers handling science and math subjects makes learning less meaningful for young learners.

In this regard, this bill seeks to provide a one-time three (3) salary step increment for teachers with specialization in science and/or mathematics with the thrust of giving focus to teaching these subjects as early as in basic education. This measure will greatly help motivate our science and math teachers to stay in the country and to strive for excellence in their field.

Science and mathematics are critical tools for our country’s development. By investing in the professional development of our teachers specializing in these subjects, we will surely improve the quality of education in the public school system and our global competitiveness.

In view of the foregoing, the immediate enactment and approve this bill is earnestly sought.

Hon. Bernadette “BH” Herrera-Dy

1. Ciriaco Tan, and So... No 12005: Teacher-leavers: Brain drain or technology transfer? DOST-SEI, Taguig, Metro Manila.
AN ACT

INSTITUTIONALIZING THE SALARY STEP INCREMENT FOR TEACHERS
WITH SPECIALIZATION IN SCIENCE AND/OR MATHEMATICS
