EXPLANATORY NOTE

Not many people might be aware of the phenomenal rise of criminality arising from the use of motorcycles for the commission of infinite number of street crimes. Through these motor vehicles the PNP has tracked down the involvement of persons riding in tandem in other bigger criminal activities or high-profile crimes.

PNP responded to this crime wave involving criminals riding in tandem on motorbikes by a program dubbed, 'Motorized Anti-Street Crime Operatives Program' of the National Capital Region Police Office. But this is not to say that in fact, such riding-in-tandem crime incidents also occurred in Central Luzon (Region III), Central Visayas (Region VII), at least in the past two years.

This crime wave continues to rise.

PNP theorized that criminal elements have taken advantage of the high-speed mobility provided by motorcycles as effective instruments of crime. Arrested suspects were found to be involved in strings of robbery, car theft, and even murder cases.

One Director General of the PNP even went to say that "For every riding in tandem suspect neutralized, several crimes are solved" thus making no false allusion to the fact that only an effective ban against riding in tandem over the use of motorcycles could be the most efficient way to curb criminality and lawlessness.

This measure is intended to strengthen or at least, lend authority to certain counter-measures already initiated by the PNP in order to stem the tide of such serial street crimes or increased notoriety of criminals or their syndicates in bigger or more high-profile crimes.

The immediate passage of this measure is highly recommended.
