EXPLANATORY NOTE

The last income reclassification of provinces, cities and municipalities was provided for under Department of Finance ("DOF") Department Order No. 23-08 in July 29, 2008. More than ten (10) years have lapsed since the last income reclassification of provinces, cities and municipalities.

In terms of legislation, the income classification of provinces, cities and municipalities was by virtue of Executive Order No.249 which was issued on July 25, 1987. Said Executive Order was issued by then President Corazon Aquino exercising legislative powers following the EDSA revolution. Since then, there is no law enacted dealing with the income reclassification of provinces, cities and municipalities.

From income classification through legislation and income reclassification through promulgation of DOF Department Orders, the income reclassifications of local governments have developed in such a way that these provinces, cities and municipalities incomeclassare not truly reflective of their financial capability particularly in generating locally-sourced revenue.

It bears emphasis that despite the developments, the DOFis constrained to halt all request for reclassification due to legal constraints as advised by the Department of Justice.

In order to address these issues, it is imperative for the DOF through its Secretary, to be given unambiguous authority and mandate to undertake regular income reclassification of provinces, cities and municipalities.

In view of the foregoing, the passage of this bill is earnestly sought.
