Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

EIGHTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 2279

Introduced by REPRESENTATIVE MARIA LOURDES ACOSTA-ALBA

EXPLANATORY NOTE

The proposed legislation seeks to adopt an Environmental Assessment System which is composed of (a) Strategic Environmental Assessment or SEA for policies, plans, and programs; and (b) Environmental Impact Assessment (EIA) for specific projects.

This bill is aimed at addressing the gaps in Presidential Decree No. 1586 ("Philippine Environmental Impact Statement System of 1978"), a broad law that has been subject to very loose interpretation. This loose interpretation resulted to encroachment on the powers of the legislative branch and confusion and disagreements among project proponents, agencies, nongovernment organization, and stakeholders. This bill is intended to resolve these conflicts.

This bill also recognizes that environmental concerns, climate change, and disaster risk reduction and management must be incorporated in all country’s plans, policies and programs, from as early as conceptualization stage until actual implementation, to ensure the country’s sustainable development. In view of this, the bill proposes the adoption of Strategic Environmental Assessment (SEA) for the country’s long and short-term policies, plans, and programs.

This measure will retain the current EIS System, but it will streamline and rationalize the system by addressing its limitations and weaknesses. Environmental Impact Assessments (EIAs) will still be required for specific projects, particularly those that are considered environmentally critical projects
or projects which have potential to cause significant adverse impact on the environment. Those considered as environmentally critical projects are heavy industries, major manufacturing industries, major resource extractive industries, major infrastructure projects, and other similar projects. To encourage entrepreneurship and to simplify the EIA system, the bill proposes that micro, small and medium-scale projects be governed by local governments. Under the bill, LGUs shall be required to integrate environmental safeguards in their local permitting system and/or complementary environmental assessment policies.

To further streamline the EIA system, the bill also provides for programmatic EIA for cluster of projects co-located in an area such as industrial estates, export processing zones small scale mining, livestock, aquaculture and mariculture projects or series of projects subdivided into several phases or stages, or consisting of several components.

The Philippines is one of the fastest growing economies in Asia. Amid all this, there is a need to strike a balance between and among economic growth, sustainable development, environmental protection, and climate change adaptation. This is consistent with the country's various international commitments, most notably the United Nations Millennium Declaration, the United Nations Framework Convention on Climate Change, and the Hyogo Framework for Action, among others.

In view of the foregoing, the passage of this bill is earnestly sought.

MARIA LOURDES O. ACOSTA-ALBA
First District, Bukidnon
Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

EIGHTEENTH CONGRESS
First Regular Session
HOUSE BILL NO. 2279

Introduced by REP. MARIA LOURDES ACOSTA-ALBA

AN ACT
ESTABLISHING A COMPREHENSIVE PHILIPPINE ENVIRONMENTAL ASSESSMENT SYSTEM

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

PRELIMINARY TITLE

Chapter 1
Basic Policies

Section 1. Short Title. — This Act shall be known and referred to as the "Philippine Environmental Assessment System Act".

Section 2. Declaration of Policy. — The State shall adhere to the principles of sustainable development. To this end, it shall ensure balanced consideration of environmental protection, human health, and socio-economic development through the assessment of significant environmental impacts of policies, plans, programs, or projects, and the prescription of appropriate protection and control measures. The implementation of this State policy shall be guided by the following principles:

(a) A proactive approach to integrating environmental considerations into strategic decision making, consistent with sustainable development principles;

(b) A systems-oriented and integrated approach in the analysis and solution to environmental concerns vis-a-vis development program;

(c) Conservation of biological diversity and sustainable use of its components in all phases of development activity, especially in the context of climate change and disaster risk reduction;
(d) Promotion of transparency and public participation in environmental assessment system;
(e) Adoption of systematic decentralization of environmental assessment and institutionalization of local environmental expertise;
(f) Strengthening environmental monitoring and evaluation mechanisms; and
(g) Establishment of mechanisms to sustain the environmental assessment system.

Section 3. Definition of Terms. — For purposes of this Act, the following terms shall be defined as follows.

(a) "Agency" shall refer to the relevant government department, bureau or office, at all levels, including government-owned and controlled corporations, with mandate over the preparation, evaluation, approval, implementation, or monitoring of a policy, plan, program or project.
(b) "Bureau" shall refer to the Environmental Management Bureau;
(c) "Co-located Projects" shall refer to projects, or series of projects or a project subdivided into several phases or stages, and located in a contiguous area;
(d) "Cumulative Effect" shall refer to the effects on the environment which result from the incremental effect of an activity or a set of activities in combination with the effects of other activities in the area, past and present, regardless of the person or agency that undertakes such other activities.
(e) "Department" shall refer to the Department of Environment and Natural Resources;
(t) "Environmental Assessment" shall refer to a process of systematic analysis, evaluation and management of the potential environmental effects of a policy, plan, program or project before a decision on the said policy, plan, program or project is made. The term includes both Strategic Environmental Assessment (SEA) and Environmental Impact Assessment (EIA);
(g) "Environmental Impact Assessment" shall refer to the process of predicting and evaluating the likely impacts of a project (including cumulative impacts) on the environment during construction, commissioning, operation, and abandonment. It also includes designing appropriate preventive, mitigating, and enhancement measures addressing these consequences to protect the environment;
(h) "Environmental Impact Assessment Report" shall refer to the document of studies on the environmental impacts of a project, including the discussion on direct or indirect consequences upon ecological and environmental integrity. The EIA Report may vary from project to project but shall contain in every case all relevant information and details about the proposed projects, including the appropriate mitigating and enhancement measures to address the identified environmental impacts.

(i) "Environmental Impact' shall refer to any change that the policy, plan, program or project may cause in the environment, including any effect of any such change on health and socio-economic conditions.

(j) "Environmental Management Plan" shall refer to the details of the preventive, mitigating, and enhancement measures of a proposed project, including monitoring and evaluation thereof, and shall form part of the EIA Report.

(k) "Environmentally Critical Project" shall refer to a project or activity that has the potential for significant adverse environmental impact, as determined by the Bureau in accordance with the provisions of this Act.

(l) "Policy, Plan or Program" shall refer to new or modified framework or course of action, strategies, guidelines or measures proposed by a concerned agency or local government unit (LGU) to define or implement its mandate under relevant laws. The term includes those financed and/or co-financed by international organizations and proposed to the head of an agency or LGU.

(m) "Proponent" shall refer to any person seeking to implement a relevant policy, plan, program or project. This includes government agencies, government-owned and controlled corporations, LGUs, and private entities.

(n) "Strategic Environmental Assessment " shall refer to the management/planning tool for a systematic evaluation of the environmental consequences of a proposed policy, plan or program in order to ensure that they are fully considered and appropriately addressed at the earliest stage of decision-making.
TITLE I
ENVIRONMENTAL ASSESSMENT SYSTEM

Chapter 1
General Provisions

Section 4. Environmental Assessment System. — The Environmental Assessment System (EAS) is hereby established which shall cover Strategic Environmental Assessment purposes of identifying, analyzing, evaluating, and managing the direct and indirect impacts of a policy, plan, program, or project on the environment, health and socio-economic issues, and ensuring that these impacts are addressed by appropriate environmental protection and control measures. It shall help identify the most practicable alternatives for achieving positive outcomes and minimizing potentially adverse effects of policies, plans, programs, and projects.

Section 5. Coverage of the Environmental Assessment System (EAS). — any policy, plan, program or project which has the potential for significant adverse impact on the environment shall be covered by the EAS.

Chapter 2
Strategic Environmental Assessment

Section 6. Applicability of the SEA. — The SEA shall be required for a proposed policy, plan, or program when all of the following conditions exist:

(a) The proposal relates, but not limited, to agriculture, forestry, fisheries, energy, health, resource extraction, infrastructure, transport, waste management, water management, tourism, coastal zone management, national, regional provincial and municipal/city development planning or land use; and

(b) Implement of the proposal may result in significant adverse environmental impact, including health and socio-economic impact.

Provided, that, SEA shall not be required for policy, plan, or program for proposals involving national security, as declared by the President of the Philippines. Provided, further, that, within five (5) years from the date of effectivity of this Act, SEA shall apply to the following:
(a) National development plans, policies, and programs, such as the Philippine Development Plan;
(b) Sectoral plans, policies, and programs, such as those relating to agriculture livestock, environment and natural resources, energy, infrastructure and industries;
(c) Subnational development plans and programs, such as regional, provincial and local development and land use plans, including those formulated by the Mindanao Development Authority, Palawan Council for Sustainable Development, and other similar bodies;
(d) Policies involving biosafety, genetically modified organism (GMO), and bioprospecting; and
(e) Indigenous peoples' development plans.

Section 7. Undertaking SEA. — the proponent shall conduct the SEA as an integral part of the formulation of the policy, plan, or program for the purpose of identifying the most practicable alternatives for achieving positive outcomes and minimizing potentially adverse effects of policy, plan, or programs. SEA may be carried out corresponding to the stages of policy, plan or program formulation and may involve sequential assessments of various components of the policy, plan, or program.

The SEA to be undertaken shall specify, but not be limited to, the following information:
(a) Description of the policy, program, or plan in summary, and process of organization to implement SEA;
(b) Scope of the SEA study and the main environmental issues related to the policy, program, or plan, specifying environmental impacts and cumulative effects to be considered, including past environmental issues and relevant trends in the state of the environment;
(c) Assessment of the policy, program, or plan vis-a-vis environmental and sustainable development considerations;
(d) Where applicable. Climate projections prepared by the Philippine Atmospheric, Geophysical, and Astronomical Services Administration (PAGASA) shall be used in the conduct of relevant modeling, studies, and assessment, as may be required;
(e) Assessment of the policy, program, or plan to disaster risk vulnerability, and its capacity to adapt to climate change; and
(f) Recommended options to prevent or mitigate any significant adverse environmental impacts resulting from the implementation of the
policy, plan, or program, including the focus of any subsequent EIAs, and measures for monitoring environmental aspects of its implementation.

Section 8. Inter-agency SEA Council. — There is hereby created an Inter-agency SEA Council (IASC) composed of the following:

(a) Secretary of the Department of Environmental and Natural Resources, Chair;
(b) Secretary of the Department of Science and Technology, Vice Chair;
(c) Secretary of Socioeconomic Planning, Member;
(d) Secretary of Department of Interior and Local Government, Member;
(e) Secretary of the Department of Agriculture, Member;
(f) Secretary of the Department of Public Works and Highways, Member;
(g) Secretary of the Department of Energy, Member;
(h) Secretary of the Department of Transportation and Communications, Member;
(i) Secretary of the Department of Health, Member,
(j) Secretary of the Department of Tourism, Member;

(k) Chairman of the Housing and Land Use Regulatory Board, Member;
(l) Chairman of the National Commission on Indigenous Peoples, Member;
(m) One representative from the Local Government Unit, Member;
(n) One representative from the environmental NGOs, Member; and
(o) One representative from the business sector, Member.

Representatives of the environmental NGOs and business sector shall be appointed by the President from a list of nominees submitted by their respective sectors, they shall serve for a term of six (6) years without reappointment, unless their representation is withdrawn and/or replaced by the concerned sector, in which case, the new appointee shall serve only for the unexpired term of the predecessor.

Only the ex-officio members of the IASC shall appoint a qualified permanent representative who shall hold a rank of no less than an Undersecretary or its equivalent.
Section 9. Secretariat. — The Department of Environment and Natural Resources shall act as secretariat of the IASC, and shall be the official repository of all documents and records thereof.

Section 10. Powers and Functions of the IASC. — The IASC shall have the following powers and functions:

(a) Ensure the mainstreaming of SEA into policies, plans and programs;
(b) Formulate implementing rules and regulations on SEA pursuant to this Act, including the provision for the progressive implementation of SEA in accordance with Section 6 of this Act;
(c) Exercise policy coordination to ensure the attainment of the goals and objectives set in this Act;
(d) Recommend legislation, policies, strategies, programs on and appropriating for SEA and other related activities;
(e) Create an enabling environment that shall promote broader multi-stakeholder participation;
(f) Formulate and update guidelines for determining and facilitating the provision of technical assistance for their implementation and monitoring,
(g) Ensure compliance of all concerned agencies with this Act;
(h) Facilitate capacity building for SEA implementation and monitoring; and
(i) Oversee the dissemination of information on SEA.

Chapter 3
Environmental Impact Assessment (EIA) for Specific Projects

Section 11. Applicability of EIA. — Environmentally critical projects, as determined by the Bureau in accordance with this Act, shall undertake an EIA for specific projects. These critical projects are presumed to have the potential for significant adverse impact on the environment. For purposes of determining critical projects, the Bureau shall consider the nature of the project and its potential to cause significant adverse environmental impacts. Critical projects shall include, but not limited to, heavy industries, major manufacturing industries, major resource-extractive industries, major infrastructure projects, and other similar projects.
Micro-, small-, and medium-scale projects and other similar activities shall be governed by the concerned LGUs, which shall integrate environmental safeguards in their local permitting system and/or complementary environmental assessment policies.

Environmentally critical projects, the impact of which is specifically addressed in a SEA, may be required by the Bureau to undertake an appropriate environmental assessment study.

Existing projects, which are deemed critical under his Act but operating without an Environmental Compliance Certificate (ECC) required under Sec. 4 of PD 1586, shall be given three (3) tears from the date of the effectivity of this Act within which to comply with the provisions of this law.

Section 12. Review of EIA. — The EIA Report shall be reviewed by a multi-disciplinary team of independent experts convened by the Bureau for that purpose. The team shall make a report of its findings and recommendation on the issuance or non-issuance of the Certificate of Proponent's Environmental Commitment (CPEC). The cost of such review shall be financed by the proponent through a fund manager, whether government or private.

Section 13. Decision on the EIA. — After a review of the EIA Report and the recommendations of the EIA Review Team, the Bureau may issue a Certificate of Proponent's Environmental Commitment (CPEC) certifying that the proposed project has integrated environmental considerations into its overall project design and management, that the assessment is technically sound at the feasibility study stage, and that the proposed preventive, mitigating, and enhancement measures are appropriate. The CPEC shall also certify that the proponent has demonstrated its commitment to implement the approved Environmental Management Plan (EMP) for its proposed project, as planned, and the corresponding Monitoring and Evaluation. The CPEC shall be limited to the results of the assessment of the environmental impacts of the proposed project. It shall not, in any manner, exempt the proponent from securing other government permits and clearance required by other laws, nor shall it be construed as resolving issues within the mandate of other government agencies, such as those relating to land ownership and possession rights.
All concerned national government agencies and local government units shall consider the CPEC and relevant EIA documents in their decision-making process.

Section 14. Environmental Safeguards for non-Environmentally Critical Projects. - Proponents of projects that are not covered pursuant to the preceding sections may be required by the Bureau to implement environmental safeguards. The Bureau shall establish an evaluation system therefor.

Section 15. EIA for Co-located Projects. — The Department shall require programmatic EIA for projects or series of projects subdivided into several phases or stages, or consisting of several components, or a cluster of projects co-located in an area, such as, but not limited to, industrial estates, export processing zones, small-scale mining, livestock, aquaculture, and mariculture projects.

The EIA requirements and conditions for co-located projects under the EAS shall be guided by an assessment of the cumulative impacts and carrying capacity as may be determined from ecological profiles of the area.

The CPEC under this provision shall be issued by the Bureau.

Section 16. Financial Guarantee Mechanism. — As part of the CPEC requirements, the Bureau may require project proponents to put up a financial guarantee mechanism to respond to the need for clean-up or rehabilitation of areas that may be damaged, whether directly or indirectly, or through occurrences, anthropogenic or otherwise, by a project, during and after its operation.

Provisions for financial liability shall ensure just and timely compensation for any adverse effects which project implementation may directly or indirectly cause on the environment or the community.

The instrument acceptable for compliance with this provision are trust funds, environmental insurance, cash funds, financial test mechanism, self-insurance and other guarantee instruments. The choice of guarantee mechanisms, or of combinations thereof, shall depend primarily on: a) the probability and magnitude of the risks involved, as culled from new and existing information and determined through environmental and health risk
assessment, and b) the financial capability of the proponent; Provided, that
such proponent shall show proof of compliance with the requirement for
contingent liability by furnishing the Department with evidence of availment
of such mechanism.

Section 17. Accreditation of Preparers and Reviewers. — The Bureau
shall establish a system of accreditation for preparers and reviewers of EIA,
which shall take into consideration their competence, expertise, track record,
integrity and independence. The Bureau may delegate the accreditation
process to a third party, government or private.

No employee of the Department or Bureau shall, in any manner
whatsoever, directly or indirectly, participate in the preparation of the EIA.

Section 18. Non-Liability to the Authenticity of EIA Documents. —
The documents that may be required by the Bureau for the conduct of an EIA
shall be used solely to determine the scope and potential impacts of proposed
projects on the environment. The Bureau shall not be liable to any allegations
or conclusions of fraud, falsification, or misrepresentation attending the
submitted documents. Any issues or disputes that may arise from such
documents shall be resolved in appropriate forums, courts, or tribunals.

Section 19. Consultation and Public Participation in the EIA. — All
proponents of environmentally critical projects shall, at the earliest stage of
the EIA process, inform and consult the concerned local government units and
communities that will be affected by the proposed project to ensure that
environmentally relevant concerns are taken into consideration in the EIA stud
and in the formulation of the EMP.

It shall be done through public hearing, whenever appropriate, which is
publicly announced and where all valid comments are heard and considered.

Section 20. Multi-partite Monitoring Team and Environmental
Monitoring Fund. - Multi-partite monitoring teams (MMTs) shall be organized
to encourage public participation, promote greater stakeholder vigilance, and
provide appropriate check and balance mechanisms in the monitoring of project
implementation.

The MMTs shall be composed of representatives of the relevant national
agencies local government units. Non-governmental organizations, and other
stakeholders in the affected communities. The government representatives shall be selected by the Bureau based on the relevance of their mandates, while those from non-governmental organizations and affected communities shall be selected from among themselves in a process facilitated by the concerned LGU and certified by the Bureau.

MMTs can be project-based or clustered by province/municipality or by sector. Such clustering shall be accomplished upon the recommendation of any of the members of the MMTs comprising the cluster and shall be convened with the assistance of the bureau and the concerned LGU. Cluster members shall agree on a manual of operations, a fund manager, and scheme for shared monitoring.

The proponent shall establish an Environmental Monitoring Fund (EMF) to support the activities of the MMT. The Bureau shall promulgate the rules for the administration and management of the EMF: Provided, that, in no case shall such fund be used other than for the purpose for which it was established.

**TITLE II**

**MISCELLANEOUS PROVISIONS**

**Chapter 1**

**Fines and Penalties**

**Section 21. Sanctions for Violations.** — Any environmentally critical project which shall operate without the required CPEC shall face closure, suspension of development or construction, or cessation of operations until such time that proper environmental safeguards are put in place and the necessary CPEC has been issued; Provided, that, the project proponent shall be fined an amount not less than One Hundred Fifty Thousand Pesos (Php 100,000.00) but not more than Twenty Million Pesos (Php20,000,000.00) depending on the magnitude of the environmental risks and upon the final decision of the proponent firm shall be held criminally liable and shall be imprisoned for a period not less than two (2) years but not more than ten (10) years, at the discretion of the Court.

Any project proponent found in violation of the EMP shall be imposed a fine in the amount of not less than Fifty Thousand Pesos (Php50,000.00) for every violation, depending upon the type and impact of the violation, but not more than Ten Million Pesos (Php10,000,000.00) per violation, plus cost of
damages, at the discretion of the Bureau. Provided, that the Bureau may order
the closure, suspension of development or construction, or cessations of
operations if the violation of the EMP is continued.

Chapter 2
Institutional Arrangement

— Unless otherwise provided by this Act, the Department shall serve as the
primary agency responsible for the implementation of the EAS. It may secure
the assistance of environmental units of other government agencies, academic
and research institutions, and environment professionals in undertaking its
responsibilities under this Act.

For this purpose, an environmental unit shall be established and/or
strengthened in each concerned government agency. Furthermore, it shall be
the responsibility of all concerned government agencies to share information
or data necessary to effectively evaluate reports required pursuant to this Act.

Concerned government agencies shall establish appropriate permanent
organizational structures systems to address the requirements of the EAS.

Section 23. Establishment of an Environmental Assessment System
Division. — In order to effectively implement the provisions of this Act, an
Environmental Assessment System (EAS) Division is hereby established
within the Bureau.

Section 24. Decentralization and Devolution of Functions. — The
Department shall, within one (1) year from the effectivity of this Act, develop
guidelines for the decentralization of functions of the Bureau under this Act
to the Regional Offices.

The Department, in coordination with the Department of Interior and
Local Government (DILG), shall, within two (2) years from the effectivity of this
Act, provide technical resources and leadership to assist LGIJs and entities
in acquiring capacity and capacity and expertise for rational and effective
devolution of functions under the EAS. The devolution of functions shall be
made after the concerned LGUs and entities have been assessed to be
technically capable of such functions.
Section 25. Local Capacity-Building in Environmental Assessment System. — the Department, through the Bureau, shall, in coordination with the DILG, lead the development and implementation of a national capacity building program in environmental assessment. To ensure the rational devolution of functions mandated in Section 24 hereof, the program shall be operational within two (2) years from the effectivity of this Act.

The national program for capacity building shall identify target entities as well as functions for devolution and prepare the target entities for the local implementation of the EAS or its components in accordance with the objectives of this Act.

Section 26. Knowledge Management System. — The Bureau shall establish a database management system for purposes of gathering, keeping, disseminating and updating all information relative to the implementation of the EAS. As part of the database management system, the Bureau shall create a public registry of all CPECs issued.

Section 27. Public Disclosure - All documents generated as part of the Each shall be accessible to the public upon request made during office hours, except those information deemed protected under Republic Act No. 8293, otherwise known as the Intellectual Property Code of the Philippines: Provided that, the executive summary of the SEA, EIA, EMP, and CPEC shall likewise be disclosed by the Bureau and proponents to the public through the internet.

Chapter 3
Actions

Section 28. Administrative Action. — Without prejudice to the right of any affected person to file an administrative action, the Department shall, on its own instance or upon verified complaint by any person, institute administrative proceedings against any person who violates the provisions of this Act and the orders, rules and regulations promulgated pursuant thereto.

Section 29. Citizen Suits. — For purposes of enforcing the provisions of this Act or its implementing rules and regulations, any citizen may file an appropriate civil or criminal action in the proper courts against:
(a) Any person who violates or fails to comply with the provisions of this
Act, its implementing rules and regulations, or orders issued pursuant
thereto; or

(b) The Department or other implementing agencies with respect to orders,
rules and regulations issued inconsistent with this Act; and

(c) Any public officer who willfully or grossly neglects the performance of
an act specifically enjoined as a duty by this Act or its implementing
rules and regulations; or abuses his authority in the performance of
his duty; or in any manner, improperly performs his duties under this
Act or its implementing rules and regulations.

Provided, however, that, no citizen suit can be filed until after a thirty
(30)-day notice has been taken thereon.

The court shall exempt such action from the payment of filing fees, and
shall likewise, upon prima facie showing of the non-enforcement or violation
complained of, exempt the plaintiff from the filing of an injunction bond for
the issuance of a preliminary injunction.

Within thirty (30) days, the court shall make a determination if the
complaint herein is malicious and/or baseless, and shall accordingly dismiss
the action and award attorney’s fees and damages.

Section 30. Independence of Action. The filing of an administrative
suit against such person/entity does not preclude the right of any other
person to file any criminal or civil action. Such civil action shall proceed
independently.

Section 31. Suits and Strategic Legal Actions Against Public
Participation and the Enforcement of this Act. — Where a suit is brought
against a person who filed an action as provided in Section 28 of this Act, or
against any person, institution or government agency that implements this
Act, it shall be the duty of the investigating prosecutor or the court, as the
case may be, to immediately make a determination not exceeding thirty (30)
days whether said legal action has been filed to harass, vex, exert undue
pressure or stifle such legal recourses of the person complaining of or
enforcing the provisions of this Act. Upon determination thereof, evidence
warranting the same, the court shall dismiss the case and award attorney’s
fees and double damages. This provision shall also apply and benefit public
officers who are sued for acts committed in their official capacity, there being
no grave abuse of authority, and done in the course of enforcing this Act.

Chapter 4
Establishing of an EAS Management Fund

Section 32. Environmental Revolving Fund. — The Environmental Revolving Fund (ERF) created under Presidential Decree No. 1586 shall remain to be operational. It shall be used primarily for defraying administrative expenses, equipment purchase or leases and other program costs directly incurred in the review, assessment and monitoring of the EAS. The ERF may be sourced from donations; endowments and grants in the form of contributions. Such endowments shall be exempt from income or gift taxes and all other taxes, charges or fees imposed by the government or any political subdivision, instrumentality or agency. It shall also include funds to be provided by proponents for the review of specific projects. All income likewise generated from fees, fines and penalties directly related to the implementation of the EAS shall accrue to the ERF and may be utilized directly by the Department for the above purposes.

All fund transactions shall, however, be subject to the usual auditing procedures in accordance with existing laws.

Section 33. Appropriations. - An amount of One hundred million pesos (P100,000,000.00) shall be appropriated for the initial implementation of this Act.

Section 34. Transitory Provision. — Non-Highly Urbanized Cities, and Third, Fourth, Fifth, and Sixth Class Municipalities shall be given a five (5)-year grace period within which to comply with the provisions of this Act on SEA.

Section 35. Implementing Rules and Regulations. — Unless otherwise provided in this Act, the Department, in coordination with other concerned agencies, shall promulgate the implementing rules and regulations of this Act, within one (1) year after its effectivity.

The Department and the IASCS, in coordination with other concerned government agencies, shall undertake such review and updating of the implementing guidelines of the EAS every two (2) years thereafter.
Chapter 5
Final Provisions

Section 36. Separability Clause. - Should any provision herein be
subsequently declared unconstitutional, the same shall not affect the validity
or legality of the other provisions of this Act.

Section 37. Repealing Clause. — Presidential Decree No. 1586, except
Section 10 thereof, Presidential Proclamation No. 2146, Executive Order No.
803, and Office of the President Administrative Order No. 42, series of 2002
are hereby repealed. All laws, orders, rules and regulations or any part thereof
which are inconsistent with the provisions of this Act are hereby amended or
modified accordingly.

Section 38. Date of Effectivity. — This Act shall take effect fifteen (15)
days after its publication in the official Gazette or in two (2) newspaper of
general circulation.

Approved,
