HOUSE BILL NO. 2382

Introduced by Rep. Florida P. Robes

EXPLANATORY NOTE

President Rodrigo Roa Duterte, in his first State of the Nation Address, stated that the government must improve its services by cutting time and eliminating redundant requirements, particularly in securing government documents such as business permits and licenses as well as passport, NBI and POEA clearances. He narrated that he witnessed how people in Davao and other nearby provinces would sleep on the pavement while queuing to be able to submit their application for passports. The same thing happens all throughout the country. He said that government agencies must streamline their process and if possible devise a mechanism that would speed things up. He suggested that all the documents which one person needs must be secured in the same place or building so that he can accomplish other tasks which he needs to comply rather than hop from one place to another so he can have all the documents he needs to comply with, for whatever purpose it may serve him. It is within this context that this proposal is submitted for favorable consideration by the concerned agencies.

The main objective of this bill is to make it expedient for people when they secure necessary clearances, permits and other documents. The City of San Jose Del Monte, a first class suburb city in the province of Bulacan, is the 19th most populated city in the Philippines based on the 2015 census. Its constituents are mostly relocatees and marginalized who do not have the means to travel to nearby cities just to secure, for example, NBI clearance which is one of the requirements when they apply for jobs. The city, as a developing district, must have, even satellite offices of the agencies mentioned in this proposal. If approved, the people of the city will be able to avail of the services without much hassle.
