HOUSE BILL NO. 2520

Introduced by Hon. Jericho Jonas B. Nogales

______________________________
EXPLANATORY NOTE

It is the policy of the state to protect and promote the right to health of the people and instill health consciousness. It is also the duty of the state to protect the environment for a balanced and healthful ecology.

Bicycle riding not only promotes health and leisure but will also provide an alternative solution to the high prices of fuel, increasing fares, traffic, noise and air pollution, and the high cost of vehicles. Biking is an alternative way of physical exercise that has long been promoted not only in the Philippines, but globally.

Under this Bill, all main roads and highways shall be provided with bicycle lanes or bikeways identified by the Local Bikeways Office (LBO). The LBO is the agency which will be in charge of implementing the policies, rules and regulations pertinent to the Bicycle Act including the registration of bicycles using the bikeways. This agency will be under the supervision of the City or Municipal Engineering Office.

This bill seeks to provide a framework for a bicycle law on a national level so that commuters may find a cheaper alternative to get to their destination while saving the environment from harmful emissions.

The passage of this bill is earnestly sought.
