EXPLANATORY NOTE

In line with the fifth item in President Rodrigo Roa Duterte’s 10-point socioeconomic agenda for the country, which aims to “promote rural and value chain development toward increasing agricultural and rural enterprise productivity and rural tourism”, this Bill seeks to declare Kaparkan Falls in the Municipality of Tineg, Province of Abra as an ecotourism site.

Kaparkan Falls is unlike any other falls found in the Philippines. The water flowing into a terrain akin to the Rice Terraces of the Cordilleras gives it a very unusual yet majestic form. It is among the many natural wonders that Abra has to offer local and foreign tourists. The soothing cool waters invites the visitors who had travelled a great distance just to see the glorious wonder which had been featured in many television programs and in social media.

Kaparkan Falls as an ecotourism site is a communal asset that can be utilized to further improve the local economy of the municipality. Diversifying the economy of Tineg, a second-class municipality engaged in agriculture and agriculture-related businesses, by venturing into tourism will greatly improve the livelihood of the people by starting their own micro-, small-, and medium-scale enterprises related to the newfound tourism fame of the town.

To this end, the declaration of Kaparkan Falls as an ecotourism site will further local economic development and will reaffirm our country’s position as a major tourist destination in the world. In light of the said explanation, the immediate passage of this bill is earnestly sought.
