House Bill No. 2793

EXPLANATORY NOTE

Cagayan de Oro River is one of the rivers draining the northern central part of Mindanao. The river has its headwaters in the Kalatungan Mountain Range in Bukidnon. It traverses the municipalities of Talakag, Baungon and Libona, picking up tributaries (Kalawaig River, Tagite River, Bubunaaoan River) along the way. It finally empties into the Macajalar Bay at Cagayan de Oro City. It serves as the natural boundary between the Bukidnon and Lanao del Sur and between Bukidnon and Cagayan de Oro City. It is popular for whitewater rafting and is the main tourist attraction of Cagayan de Oro City.

Just recently, Cagayan de Oro River overflowed and the whole city suffered from flashfloods. The flashfloods destroyed not just properties but agricultural areas and farm-to-market roads as well. Based on the Progress Reports of the Regional Disaster Coordinating Council of Region 10 based in Cagayan de Oro City, the flashfloods of January 3, 2009 have affected 21,605 persons or 5,223 families in the city and have damaged houses with 141 totally damaged and 1,410 partially damaged in an estimated cost of 1.9 million as of January 8, 2009 only.

In the January 11, 2009 floods that befell Cagayan de Oro City, 37,086 persons or 7,410 families were affected with 94 houses totally damaged and 71 partially damaged.

To prevent flashfloods from recurring, there is a need for a more comprehensive flood control and drainage system along Cagayan de Oro River, its tributaries and natural waterways. Hence, this bill which seeks to create the Cagayan de Oro River Basin Development Authority which shall oversee the preservation, protection and development of the waterways flowing into it.

In view thereof, immediate approval of this Bill is sought.
EIGHTEENTH CONGRESS
REPUBLIC OF THE PHILIPPINES
First Regular Session

HOUSE OF REPRESENTATIVES

Introduced by Representative Rufus B. Rodriguez

House Bill No. 2793

AN ACT
CREATING THE CAGAYAN DE ORO RIVER BASIN DEVELOPMENT AUTHORITY, DEFINING ITS POWERS AND FUNCTIONS AND APPROPRIATING FUNDS THEREFOR

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

SECTION 1. Short Title. — This Act shall be known as the “Cagayan De Oro River Basin Development Authority”.

SEC. 2. Declaration of Policy. — It is hereby declared the policy of the State to promote and accelerate the preservation, protection, development and balanced ecology of the Cagayan de Oro River Basin and its tributaries, including its surrounding provinces, cities and municipalities, within the context of the national plans and policies for social and economic development. Towards this end, the State shall focus its resources and capability to implement, manage and oversee the necessary measures and programs on flood control and drainage system in all the river systems in the region in order to eliminate the adverse effects of typhoons and floods during rainy seasons on the lives and properties of people residing along the area traversed by the Cagayan de Oro River.

SEC. 3. Cagayan de Oro River Authority. — There is hereby created a corporate body to be known as the CAGAYAN DE ORO RIVER BASIN DEVELOPMENT AUTHORITY, hereinafter referred to as the “CDO RIVER AUTHORITY,” which shall be organized within one hundred (100) days after the approval of this Act.

The CDO River Authority shall be under the supervision of the Office of the President. All policies and programs, orders, rules and regulations promulgated, all appointments made and all transactions entered by CDO River Authority shall be subject to the approval of the President of the Philippines.

SEC. 4. Mandate. — The CDO River Authority shall exercise the following mandates:

a) Prepare a master plan to preserve, protect and develop the Cagayan de Oro River and its major tributaries which shall include the Kalawaig River, Tagite River, and Buhunaan River and other rivers or river systems within the territorial jurisdiction of the CDO River Authority;

b) Conduct engineering surveys of the major rivers and river systems, assess and monitor water quality, pinpoint pollution sources and identify the rivers that need to be developed for exploitation or rehabilitation;

c) Plan, program, finance and undertake infrastructure projects such as river, flood and tidal control, waste and sewerage system, water supply, roads, port, irrigation, housing and related public works which are required within the context of its development plans and programs, including the readjustment, relocation or resettlement of population as may be deemed necessary and beneficial by the CDO River Authority;

d) Initiate and facilitate planning, implementation, monitoring and evaluation of pertinent projects with positive impact on environment and development,
including dredging, widening and deepening of river channels and improvement of river alignments, revetments, construction of dams and reforestation;

de) Prioritize rivers positively identified for development and rehabilitation and prepare a river-specific plan of operation for the development, rehabilitation and general improvement of environmentally degraded rivers;

e) Initiate funding arrangements with local and foreign donors, including fund-raising, to finance priority development projects and provide direct funding of minor initiatives expected to create a positive impact on the environment in the projected area;

f) Recommend to the proper agencies offering financial support, technical and physical assistance about the level of priority to be accorded to river systems development and rehabilitation projects;

g) Coordinate and integrate such projects or operations of local governments, government agencies, public corporations and, where clearly necessary and feasible, those of private entities, as will bear directly upon the plans and activities of the CDO River Authority so as to make possible the accelerated and intensive development and rehabilitation of the rivers and river systems within the context of the master plan and to set up a compact and well-trained staff for effective liaison and consultation or joint planning and implementation with such government and private entities;

h) Investigate, identify natural washes and gullies, study the lay of the land, improve, construct and administer all flood control and drainage systems in the areas covered;

i) Investigate and identify available and possible water resources for the purpose of utilizing the same and implement the acquisition thereof;

j) Set the minimum depth and slope and standard of flood control and drainage systems so that water will reach their natural outfalls; and

k) Plan, design, construct the necessary flood control and drainage systems for the next twenty (20) years following the approval of this Act.

SEC. 5. Powers and Functions. — The CDO River Authority shall exercise the following powers and functions:

a) Cause, oversee, coordinate and monitor the implementation of, and periodically update the master plan to preserve, protect, develop and exploit the physical and natural resources of the Cagayan de Oro River and its major tributaries and areas along such rivers and tributaries;

b) Exercise supervision, control and regulation over the implementation of the infrastructure projects such as river, flood and tidal control, waste water and sewerage system, water supply, roads, port, irrigation, housing and related public works within its master plans and programs;

c) Exercise the right of eminent domain whenever the Commission deems it necessary to attain the mandate under this Act;

d) Enter into contracts of any kind and description to enable it to carry its mandate and functions;

e) Acquire, buy, purchase, hold or lease, such personal and real property as it deems necessary or convenient in the transaction of the business or in carrying out its mandate and to lease, mortgage, sell, alienate or otherwise encumber or dispose of any personal and real property held by the CDO River Authority;
