House Bill No. 2878

Introduced by

EXPLANATORY NOTE

This bill proposes to amend Presidential Decree No. 442, known as the Labor Code of the Philippines and institute the rationalization of wage levels on a per industry basis, instead of the current regional minimum wage structure. For this purpose, it seeks to abolish the existing Regional Tripartite Wages and Productivity Boards (RTWPBs) and instead empower the National Wages and Productivity Commission to determine and fix the national minimum wage rates according to industries and address regional wage distortions.

The current regional minimum wage set-up, introduced by Republic Act 6727, otherwise known as the Wage Rationalization Act, allows each region in the Philippines has a unique minimum wage set by the Regional Tripartite Wages and Productivity Boards (RTWPBs) based on the poverty threshold, employment rate, and cost of living specific to the region. As a result, however, despite its original intent to encourage industries to disperse to areas outside Manila, Cebu and Davao and other urban areas, wage distortions have emerged in different regions. The RTWPBs have failed to ensure decent standard of living for the Filipino workers, especially in the regional countryside, especially since there is a significant disparity in wages across regions while the difference in the cost of living is minimal.

The rationalization of wage levels on a per industry basis will result in equitable pay between workers in the different regions and in the process, decongest the country’s overpopulated capital, which is often the top choice of workers due to higher wages. Most businesses still concentrate in these urban centers where the bulk of their markets or customers are, intensifying the internal migration to urban centers.
Replacing the regional with an industrial-based minimum wage set-up will ensure that the national minimum wage remains responsive to certain peculiarities unique to each industry. With an equitable pay structure between urban and rural workers, industries will now be encouraged to invest in regions where operating and production costs are significantly lower than in the urban centers. This will result in higher income productivity and ensure a more inclusive economic growth that will benefit ordinary Filipino workers and their families.

In view of the foregoing, the passage of this bill is earnestly sought.

It shall be mandatory for the NLRC to conduct continuous hearings and decide any dispute arising under this Section within twenty (20) calendar days from the time said dispute was submitted for resolution. whether the workers are paid the prescribed minimum wage rates and other
benefits granted by law or any Wage Order. In unionized companies, the
Department of Labor and Employment inspectors shall always be
accompanied by the president or any responsible officer of the recognized
bargaining unit or of any interested union in the conduct of the inspection. In
non-unionized companies, establishments or businesses, the inspection

the said company. The workers' representative shall have the right to submit
his own findings to the Department of Labor and Employment and to testify on
the same if he cannot concur with the findings of the labor inspector.

Provided, that any person convicted under this Act shall not be entitled to the benefits provided for under the Probation Law.

The Department of Labor and Employment shall have the authority to impose such other administrative penalties it sees fit to impose under the circumstances of each case of violation.

Section 9. The Secretary of Labor and Employment shall promulgate the necessary rules and regulations to implement the provisions of this Act.

Section 10. If any part or provision of this Act is held unconstitutional or invalid, other parts for provisions hereof which are not affected shall continue to remain in full force and effect.
