EIGHTEENTH CONGRESS  
First Regular Session  

House Bill No. 3066  

Introduced by Honorable ALFONSO V. UMALI JR.  

EXPLANATORY NOTE

The most important role of hospitals and health institutions is to provide adequate medical services to the people. The reality however, is that it is difficult to secure medical services from big private hospitals that often charge medical fees that the ordinary Filipino people cannot afford, leaving him no other option but to rely on medical services provided by the government hospitals. Sadly, perennial budgetary problems plague government hospitals and prevent them from filling this great void in the Filipinos' health care needs.

As a backgrounder, the Roxas District Hospital, now known as “Oriental Mindoro Southern District Hospital,” was created by Republic Act No. 1900 thru the bill introduced by the late Congressman Jose Leido Jr. in 1969. In the same year, a hospital building was erected with an initial cost of P100,000.00 on a one-hectare lot in Brgy. Odiong, Roxas, Oriental Mindoro which was donated by the heirs of Lucio Suarez Sr. On January 21, 1995, Republic Act 7857 was enacted and increased the bed capacity of Roxas District Hospital from twenty-five (25) to fifty (50) beds.

However, the steady growth of number of the populace and consequently the medical cases referred to the Roxas, necessitates the need for the government to upgrade the bed capacity of the Roxas District Hospital. To realize this goal, the improvement of this government hospital is necessary. This bill aims to provide the Roxas District Hospital with an increased bed capacity.
This legislation aims to create a more responsive health institution that will address the pressing medical needs of the people, more particularly the poor and the marginalized of society.

In view thereof, immediate approval of this bill is earnestly sought.
