House Bill No. 3071

Introduced by Honorable ALFONSO V. UMALI, JR.

EXPLANATORY NOTE

The current but fast-changing nature of both global and local economies, not to mention the increasing trend towards globalization, highly encourages the establishment of Special Economic Zones in strategic geographic areas in the Philippines.

This bill seeks to establish the Special Economic Zone and Freeport Zone in the Municipality of Mansalay in the Province of Oriental Mindoro.

Be it known that Oriental Mindoro is not only an agricultural haven, but also an emerging choice of area for investment. Dubbed as the “Gateway to the South,” thousands of goods and people traverse the Province of Oriental Mindoro to and from the islands of Visayas and Mindanao. Further, the province is also gifted with diverse natural resources, progressive transportation infrastructure, power and abundant supply of highly technical and skilled human resources. Today, the Province of Oriental Mindoro continues to be one of the preferred alternative areas for investment. Given its strategic geographical location and profuse resources, the establishment of a Special Economic and Freeport Zone in the province is undeniably ideal and apposite.

Anchoring on the main objective of promoting the
countryside as alternative areas for investments which has been one of the mechanisms in order to empower and develop other provinces as early as in the 1990s when most of the Special Economic Zones in the country were established, this bill envisions to create an Ecozone that will also alleviate and improve the economic condition not only of the Province of Oriental Mindoro but the entire MIMAROPA Region as well as its nearby provinces. By establishment of this Ecozone, local economic activities will significantly increase. Industrialization will spur development even in the far-flung areas in the Region, thus uplifting the welfare of the rural folks while, at the same time, decongesting the cities and urbans like Metro Manila.

The Special Economic and Freeport Zone is conceptualized as a self-sustaining industrial, commercial and investment center resulting to economic growth and employment generation. This bill also envisions an Economic and Freeport Zone to be operated as a separate customs territory to ensure free flow of movement of goods and commodities in the area and their exportation therefrom. Similar to other ecozones in the country, it will provide various incentives, both tax and non-tax, for businesses operating within the zone.

Emphasis must be made on the fact that the establishment of Oriental Mindoro Special Economic and Freeport Zones is consistent with the government’s policy to encourage and promote investments, induce and accelerate sound and balanced industrial, economic and social development in the country.

Given the foregoing, consideration and early approval of this bill is earnestly sought.
