Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

EIGHTEENTH CONGRESS
First Regular Session

House Bill No. 3223

Introduced by Representative: Florencio Gabriel "Bem" G. Noel

EXPLANATORY NOTE

Article XII, Section 1 of the 1987 Constitution provides: The goals of the national economy are a more equitable distribution of opportunities, income, and wealth; a sustained increase in the amount of goods and services produced by the nation for the benefit of the people; and an expanding productivity as the key to raising the quality of life for all, especially the underprivileged.

The State shall promote industrialization and full employment based on sound agricultural development and agrarian reform, through industries that make full and efficient use of human and natural resources, and which are competitive in both domestic and foreign markets. However, the State shall protect Filipino enterprises against unfair foreign competition and trade practices.

In the pursuit of these goals, all sectors of the economy and all regions of the country shall be given optimum opportunity to develop. Private enterprises, including corporations, cooperatives, and similar collective organizations, shall be encouraged to broaden the base of their ownership.

Coconut remains to be one of the most important crops and major export products of the Philippine, and it contributes to 3.6% of the country’s gross value-added (GVA) in agriculture, next to banana, corn and rice. Indeed, the country remains to be a top producer and exporter of coconut worldwide.

However, despite the continued growth of coconut exports, there has been no remarkable improvement in the coconut industry for the past years. Thus, there is an urgent need to address the stagnant growth of the coconut industry because the available resources and opportunities are not being maximized. In improving and developing the coconut industry, funds will be more accessible for developmental programs, improvement of coconut farmer’s income, and improvement of the farms’ productivity, among others.
In line with the 1987 Constitution’s mandate, this bill is seen as timely and necessary measure to consolidate all assets and benefits emanating from the coconut levy in order to create a trust fund for the exclusive benefit of coconut farmers and farm workers as embodied in the Coconut Farmers Development Fund.

The coconut industry is an important pillar of Philippine agriculture and its development would pave way for the significant improvement of the lives of millions of Filipino people. Hence, the passage of this bill is one of the collective efforts exerted to finally claim back, for the benefits of the coconut farmers and their families, the billion worth coco levy funds. In positioning, and striving to reach the full potential of the coconut industry, the country should be persistent in pushing for the disbursement of the coco levy.

In view of the foregoing, the immediate passage of this bill is earnestly sought.

FLORENCIO GABRIEL G. NOEL
