HOUSE BILL NO. 3297

Introduced by Representative Michael L. Romero

EXPLANATORY NOTE

In the Republic of the Philippines, *Land Use Planning* serves as the development and zoning mechanism for the unorganized and de-organized areas, including communities and homesteads. These areas either have no LGUs or have chosen not to administer land use controls at the local governments. Alongside with carrying out its planning and zoning responsibilities, the issues permit's for smaller development projects, such as home constructions and renovations.

This House Bill seeks to create a comprehensive *National Land Use program*, to foster the certification of proposed land uses, and promote developmental activities to comply with the applicable land use standards and policies.

Thus, the early passage of this bill is earnestly requested.
