House Bill No. 3540

Introduced by Representative MICAELA S. VIOLAGO

EXPLANATORY NOTE

This bill seeks to address the mounting complaints against the exorbitant parking fees being charged by shopping malls, restaurants, supermarkets, schools, hospitals, hotels and other similar business and/or commercial establishments to their customers.

Given the increasing sophistication, not to mention consumers' shifting preferences, the provision of parking facilities/spaces is a basic amenity that they expect no less. In fact, even progressive and reputable business concerns will not survive the onslaught of competition without these parking facilities. It is not, therefore, an excuse that they should unreasonably collect parking fees on the pretext that they need to recoup their investment in providing and maintaining such facility, when the underlying reason is to entice discriminating consumers in the first place.

This bill does not entirely prohibit the collection of parking fees but to rationalize its imposition in the light of an unregulated environment relative thereto that proves nugatory, if not inimical to, the interests and welfare of the patronizing and motoring public.

This bill seeks for an all-inclusive system, which would exempt all patrons and clients of these commercial establishments and institutions from the payment of parking fees for the first eight (8) hours of use of the parking facility/space upon the meeting of the threshold amount provided in this Act. This measure is in line with our mandate of crafting legislation that is pro people and which put their interests above all else.

Accordingly, approval of this proposed measure, is strongly recommended.
