EIGHTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 3651

Introduced by: Hon. Angelina “Helen” D.L. Tan, M.D.

AN ACT
ESTABLISHING MALASAKIT CENTERS IN ALL GOVERNMENT HOSPITALS,
STREAMLINING ACCESS TO MEDICAL AND FINANCIAL ASSISTANCE FUNDS, AND
APPROPRIATING FUNDS THEREFOR

EXPLANATORY NOTE

This bill is being filed in support of the speedy passage of Senator Christopher Lawrence “Bong” T. Go’s Senate Bill No. 199, which seeks to institutionalize “Malasakit Centers” to complement the implementation of Republic Act No. 11223, otherwise known as the “Universal Health Care Act”.

In 2018, a one-stop shop dubbed as "Malasakit Center" was launched by the government in the Vicente Sotto Memorial Medical Center (VSMMC) in Cebu City. Seen to effectively ease the process of availing government services for patients, more Malasakit Centers were established. By the first half of 2019, there were about 34 Malasakit Centers all over the country today.

Malasakit Centers serve as house desks for representatives from the Department of Health (DOH), Department of Social Welfare and Development (DSWD), Philippine Health Insurance Corporation (PhilHealth) and Philippine Charity Sweepstakes Office (PCSO).

With the enactment of Republic Act No. 11223 or the "Universal Health Care (UHC) Act", every Filipino citizen is automatically included in the National Health Insurance Program. Even in anticipation of how UHC will bring about a dramatic change in how patients can more freely access individual health care through secured health financing through PhilHealth and more effective and efficient implementation of public health programs by the DOH for population-based services for the community, the challenge remains in how we can close the gap between indigent, marginalized families and those who can afford availing of basic and specialty medical services in both the outpatient clinics and the hospital in-patient setting.

The benefits under the UHC rely on health benefits package as determined by the PhilHealth. As such, out-of-pocket expenditures may still arise if the benefit packages are not enough to cover the medical needs of indigent and poor patients. In 2017, despite the safety nets of PhilHealth, out-of-pocket payment accounted for 55% of health expenditures, according to the Philippine Statistics Authority.

This proposed measure intends to reduce, if not eliminate, out-of-pocket expenditures of indigent and financially incapacitated patients including non-medical expenses like transportation costs. Malasakit Centers will also be a Health System Enabler to improve assessment for patient assistance and referral to provide much needed system support for patient navigation.

This bill seeks to establish, maintain and operate Malasakit Centers in all government hospitals in the country. The PhilHealth representative shall be in charge of assisting and processing the concerns of both direct and indirect contributors to PhilHealth regarding the implementation of the UHC law, which may include concerns on coverage,
billing, health benefits packages, among others. The DOH, PhilHealth and PCSO representatives shall be in charge of providing medical assistance, while the DSWD and LGU representatives will be providing medical and financial assistance. Through the establishment of Malasakit Centers, we can deliver basic services to those who are most in need and in the most efficient, responsive and sustainable manner.

In view of the foregoing, immediate approval of this bill is earnestly sought.

ANGELINA "HELEN" D.L. TAN, M.D.
