House Bill No. **3772**

EXPLANATORY NOTE

The well-being of our elderly public has always been a primary concern of the State. We have recognized that they are an integral part of Philippine society, that they have and continue to contribute significantly to our economy, and deserve to be taken care of in their twilight years.

However, there is a sector of elderly members in our society that has been overlooked even if their contributions have been just as relevant and considerable. These are foreign nationals who have relocated to the Philippines and chosen our country as their second home. Some have come for commercial purposes, established their own businesses, or have settled as retirees or immigrants in the Philippines for personal or family reasons. During their stay, they have brought in considerable investments, patronized local businesses, contributed to the local economy, and in some cases have taken a role in nation building.

These foreign nationals who have taken up permanent residence in the country and have integrated into Philippine society are as much a part of our public as our own citizens. They deserve consideration for their contributions and similar treatment in their older years, and so this bill seeks to extend to them the privileges granted to the elderly under the Expanded Senior Citizens law. Moreover, through the grant of these benefits, this bill hopes to make the Philippines an even more attractive retirement destination, thereby encouraging more foreign nationals to permanently investment in our country.

Therefore, this bill seeks to grant foreign nationals residing in the Philippines who are at least 60 years of age the same privileges given to our senior citizens under the Expanded Senior Citizens law.

In view of the foregoing, immediate passage of this bill is earnestly sought.
