EXPLANATORY NOTE

This bill seeks to increase the authorized campaign expenditures of candidates and political parties to a more realistic level in order to make more accurate, truthful and appropriate the statement of contributions and expenditures (SOCE) that they will submit to the Commission on Elections (COMELEC).

Republic Act No. 7166 explicitly provides limitations upon the expenses of candidates and of political parties as follows:

For President and Vice-President – Ten pesos (P10.00); for other candidates, Three pesos (P3.00) for every voter currently registered in the constituency where he filed his candidacy; and for a candidate without any political party and without support from any political party - Five pesos (P5.00) for every such voter; and

For political parties – Five pesos (P5.00) for every voter currently registered in the constituency or constituencies where it has official candidates.

It is worthy to consider that the purchasing power of the Philippine peso has continuously diminished from the time Republic Act No. 7166 took effect twenty five (25) years ago or in 1991 to be exact up to the present time due to numerous economic factors.

Based on a recent computation by an economist as reported in the national dailies, the value of one (1) Philippine peso in 1991 was equivalent to P3.41 in 2013 or our one (1) Philippine peso in 2013 was equivalent to P0.29 in 1991 based on Consumer Price Index. There is a need therefore, considering the time and economic factors, to increase the authorized campaign expenditures for the positions of President and Vice-President from P10.00 to P50.00, for other candidates from P3.00 to P20.00 and for political parties from P5.00 to P25.00.
The loud and growing clamour to adjust the poll spending cap did not only come from the candidates, political parties and COMELEC but even from international election observers. In fact, Pro-democracy non-government organization (NGO), Carter Center, which was one of international observers during the recently 2016 National and Local Elections noted the "unrealistically low" spending limits for candidates and political parties in the country. The Center, in its report, viewed that "All mission interlocutors agree that the spending limits imposed on election campaigns are unrealistically low, and that candidates are in effect forced to file false declarations of expenses as a result."

The foregoing reasons warrant the immediate approval of this bill.
