EXPLANATORY NOTE

This bill seeks to encourage corporate social responsibility among corporations, domestic or foreign, partnerships, and other establishments doing business in the country. This bill has already been approved by the House of Representatives on its 3rd and final reading in the 17th Congress. Considering however the significance of this bill recognizing the indubitable role of the private sector in nation building it is imperative that this bill be filed.

The State recognizes the indispensable role of the private sector, encourages private enterprise, and provides incentives to needed investments (Section 20, Article II, 1987 Constitution). The State shall encourage non-governmental, community-based, or sectoral organizations that promote the welfare of the nation. To this end, the State shall encourage the participation of the private sector through the concept of corporate responsibility with the end in view of achieving sustainable economic and environmental protections. It is high time for corporations to take full responsibility of the effects of their actions in the community where they operate. It is high time for corporate managers to take care of the environment free from abuse and corporate neglect, and at the same time incentivize the same for their corporate expense and contributions.
In view of the bill's importance as an institutionalized mechanism in integrating the involvement of private corporations and partnerships in the delivery of socio-economic and social services beneficial to the people, it is earnestly sought that this bill be approved.
