Republic of the Philippines

HOUSE OF REPRESENTATIVES
Quezon City

EIGHTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 3891

Introduced by REP. FRANCISCO “KIKO” B. BENITEZ, Ph.D.

EXPLANATORY NOTE

The Philippines is one of the fastest urbanizing countries in the East Asia and Pacific region. In 2015, the level of urbanization or the proportion of urban population to total population is 51.2 percent or 51.73 million persons. By 2050, 84 percent of the population will live in cities and urban areas.

Cities are catalysts of economic growth. Urban areas account for 75 to 80 percent of the country’s gross domestic product since 2000. The National Capital Region (NCR) alone contributed 38 percent of the GDP on average in the period 2010-2015.

Urbanization provides resources and opportunities for employment, livelihood, services and innovation, driving rural-urban migration. According to a survey conducted for AmBisyon 2040, the country’s long-term development plan, 30 percent of Filipinos prefer to live in big cities while 29 percent want to live in urban centers in the province.

However, cities fall short on its promise of prosperity for all. Poverty incidence in urban areas remains prevalent at 12.5 percent in 2012.

Vulnerability of the poor in urban areas is aggravated by spatial exclusion and exposure to natural and health hazards. Due to increasing competition for land and land speculation, cost of land skyrockets, making housing unaffordable to low-income families. The urban poor find refuge in informal settlements that lack basic infrastructures, utilities and services. In Metro Manila alone, 584,000 families live in informal settlements. Meanwhile, the adverse impact of climate change and natural disasters threaten to displace families living in danger zones, estimated at 104,000. Around 70 percent of cities in the Philippines are coastal and vulnerable to environment hazards.

Moreover, inadequate transportation infrastructures, alongside the spike in volume of motor vehicles, results in worsening traffic congestion, incurring 3.5 billion daily in economic losses, according to the Japan International Cooperation Agency. The high carbon footprint of fossil-fueled motor vehicles also poses health and environmental risks. According to the State of Global Air 2019 Report, the Philippines is among the top ten (10) countries with highest mortality attributable to air pollution, with 64,000 deaths.

---

To abate urban dysfunctions and fulfill the promise of economic and social inclusion of urbanization, the State must enact policies and institute programs ensuring inclusive, resilient and sustainable urban development, in accordance with the Constitution and in the performance of our commitment to and responsibilities under the 2030 Agenda for Sustainable Development and the New Urban Agenda, which calls for the recognition, promotion and protection of the right to the city of all people.

Towards this end, the State must ensure the equitable and sustainable distribution of urban resources, inclusive social order, embracing and celebrating the diversity of identities and cultures, and meaningful participation in urban planning and governance.

In view of the foregoing, the approval of this measure is earnestly sought.

REP. JOSE FRANCISCO "KIKO" B. BENITEZ, Ph.D.
Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

EIGHTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 3891

Introduced by REP. FRANCISCO "KIKO" B. BENITEZ, Ph.D.

AN ACT PROVIDING FOR THE DEVELOPMENT OF SUSTAINABLE CITIES AND COMMUNITIES IN THE COUNTRY, AND FOR OTHER PURPOSES

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

SECTION 1. Short Title. — This Act shall be known as "Sustainable Cities and Communities Act".

SEC. 2. Declaration of Policy. — In consonance with the constitutional guarantees on social justice, general welfare, public health, and ecological balance, and the constitutional mandate to undertake a continuing program of urban development and housing to provide underprivileged citizens decent and affordable housing, access to basic services, such as but not limited to healthcare and education, and adequate employment opportunities, the State recognizes the right to the city of all, encompassing the right of the people to equitable and sustainable resource distribution, meaningful participation in urban planning and governance, and social inclusion.

To fulfill and protect the right to the city, it is hereby declared the policy of the State to promote inclusive, resilient and sustainable urban development, and to ensure access of all to the resources and opportunities that cities offer.

Pursuant thereto, the State shall promote the right to the city, encompassing the right of the people to equitable and sustainable resource distribution, social inclusion, access to employment and livelihood opportunities, and meaningful participation in urban planning and governance.

Towards these ends, the State shall ensure the inclusive use of urban space for housing and livelihood, improve access to basic services, develop integrated public transportation systems and green infrastructures, protect ecosystems, and manage risks to climate change and natural disasters.

Furthermore, the State shall pursue programs to celebrate diversity and cultural heritage, foster creativity, innovation and participation in urban planning and policy-making, and maintain public order and safety through the prevention of crime, violence and discrimination.

SEC. 3. Coverage. — All cities and municipalities, with a majority of barangays classified as urban by the Philippine Statistics Authority, hereinafter referred to as urban areas, are hereby mandated to align their plans, programs and activities towards the full implementation of this Act.
SEC. 4. Guiding Framework for Sustainable Cities. —To fulfill its economic, political and social functions, urban areas shall conform with and implement plans, programs and activities according to the following principles:

(a) Inclusive urban economy which creates decent jobs with fair wages, supports entrepreneurship, creativity and innovation, ensures safe and non-discriminatory working environments and promotes resource-efficient industries and consumption;

(b) Spatial justice which promotes multiple use of land to prevent forced evictions, displacement, marginalization, and gentrification, and ensures that urban development provides vulnerable and marginalized sectors the access to adequate and affordable housing under different tenurial arrangements, universal healthcare, accessible education, infrastructures, livelihoods, food security and nutrition, safe and inclusive public spaces that foster social cohesion;

(c) Urban renewal which includes slum upgrading to improve housing, infrastructures and services, and urban greening, including the promotion of urban agriculture for food security and communal wellness, and the development of safe, accessible and enjoyable open spaces and parks;

(d) Urban mobility and connectivity which provide for safe, accessible, affordable, efficient and sustainable public transportation through the development of adequate transportation infrastructures, utilities and intermodal transportation systems, including non-motorized modes of transportation such as walking and bicycling, and enhances digitalization and technological innovation to strengthen global and urban-rural linkages and management;

(e) Urban safety which ensures freedom of all persons, regardless of gender, age, health status, income, nationality, ethnicity, and political, religious or sexual orientation, from crimes and all forms of violence and discrimination in the workplace and public spaces;

(f) Ecological balance which requires the sustainable management of natural resources, protection and conservation of biodiversity, natural ecosystems and landscapes, proper waste management and sanitation, provision of green infrastructures and the development and use of renewable energy sources in transportation, industry and households to reduce carbon footprint and improve water and air quality;

(g) Climate resilience which builds the capacity of urban areas to adapt to and manage threats and risks from climate change and natural disasters, and facilitate post-disaster rehabilitation and recovery;

(h) Cultural diversity which respects, protects, and promotes the diverse livelihoods, customs, memory, identities, expressions, and sociocultural forms of its inhabitants, preserves tangible cultural heritage, such as artistic creations, historical sites and monuments, and safeguards intangible cultural heritage, such oral traditions, performing arts, indigenous knowledge and traditional skills, as well as the instruments, objects, artefacts and cultural spaces associated therewith; and,

(i) Participatory urban governance which enhances political participation in the formulation, implementation, monitoring, and budgeting of urban policies in order to strengthen the transparency, effectiveness and inclusion of the diversity of
inhabitants and their organizations, especially of urban poor and marginalized groups, upholding communal spirit and supporting community-building.

The Department of Human Settlements and Urban Development, in consultation with relevant government agencies, local government units, civil society organizations, the private sector and the academe, shall, within 180 days since the effectivity of this Act, harmonize the National Urban Development and Housing Framework with this Act and formulate, in coordination with the National Economic and Development Authority (NEDA), a National Sustainable Cities Roadmap to operationalize the goals of this Act, taking into consideration the unique and evolving economic, social and institutional contexts of the country.

The National Sustainable Cities Roadmap shall provide long-term strategic plans to achieve the goals of this Act, and shall generate estimates and projections to determine present and future demand for infrastructures and services in urban areas, and shall identify policy and programmatic interventions to address challenges to sustainable urban development, and specific periodic targets and indicators and investment requirements thereof.

SEC. 5. Targets and indicators. — In preparing the National Sustainable Cities Roadmap, the DILUSUD and NEDA shall be guided by the principles provided under Section 4 of this Act, as well as the targets and indicators set forth in the 2030 Agenda for Sustainable Development and the New Urban Agenda of the United Nations:

(a) Urban population living in slums — measured in terms of proportion of urban population living in slums, informal settlements or inadequate housing;

(b) Public transport access — measured in terms of proportion of population that has convenient access to public transport, by sex, age and persons with disabilities;

(c) Sustainable urbanization rates — measured in terms of ratio of land consumption rate to population growth rate;

(d) Urban planning and management — measured in terms of proportion of cities with a direct participation structure of civil society in urban planning and management that operate regularly and democratically;

(e) Protecting cultural heritage — measured in terms of total public and private expenditure per capita spent on the preservation, protection and conservation of all cultural and natural heritage;

(f) Deaths and injuries from natural disasters — measured in terms of number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population;

(g) Economic losses from natural disasters — measured in terms of direct economic loss in relation to global GDP, damage to critical infrastructure and number of disruptions to basic services, attributed to disasters;

(h) Solid waste management — measured in terms of proportion of urban solid waste regularly collected and with adequate final discharge out of total urban solid waste generated;

(i) Urban air quality — measured in terms of the annual mean levels of fine particulate matter;
(j) Open spaces in cities – measured in terms of average share of the built-up area of cities that is open space for public use for all, by sex, age and persons with disabilities;

(k) Safe spaces in cities – measured in terms of proportion of persons who are victims of physical or sexual harassment, by sex, age, disability status and place of occurrence, in the previous 12 months;

(l) Urban and regional planning – measured in terms of proportion of population living in cities that implement urban and regional development plans integrating population projections and resource needs, by size of city;

(m) Integrated disaster risk management – measured in terms of adoption and implementation of national disaster risk reduction strategies;

(n) Local disaster risk management — measured in terms of adoption and implementation of local disaster risk reduction strategies in line with national disaster risk reduction strategies; and,

(o) Such other targets and indicators as determined by DHSUD and NEDA consistent with the model of sustainable cities and communities provided in Section 4 of this Act.

SEC. 6. Urban planning. — The DHSUD, in coordination with NEDA and Department of Interior Local Government (DILG), shall provide technical assistance to local government units in the integration of the pertinent provisions of this Act, the National Urban Development and Housing Framework and the National Sustainable Cities Roadmap in their Annual Development Plans, Annual Investment Plans, Physical Framework Plans, Development Master Plans, Comprehensive Land Use Plans, Disaster Risk Reduction and Management Plans, and similar plans.

National agencies and local government units shall ensure the genuine and adequate participation in urban, regional, spatial and/or environmental planning; Provided, That, every Filipino shall have access to information, official records, public records and to documents and papers pertaining to official acts, transactions or decisions, and research data related to urban development to enable informed participation in the decision-making.

SEC. 7. Incentives for Sustainable Cities. — The DILG and the Department of Budget and Management shall develop a grant or cash award incentive scheme for LGUs that are able to achieve the annual targets set by DHSUD and NEDA. The Department of Finance shall provide incentives to the participation of the private sector in the achievement of the goals identified under this Act, in accordance with Republic Act No. 10771.

SEC. 8. Funding. — National government agencies and local government units shall include in their respective programs the needed operational and institutional requirements in upholding the enumerated rights in this Act, the initial funding of which shall be charged against their current appropriations. Thereafter, such sums as may be necessary for the continued implementation of this Act shall be included in the annual General Appropriations Act.

The National Government and local government units shall accordingly pursue alternative resource mobilization strategies, including, but not limited to, public-private
partnerships, official development assistance, and land value capture, to leverage public resources and maximize their value to finance the operational requirements of this Act.

SEC. 9. Oversight. – The DHSUD, NEDA and DILG shall submit annually a Progress Report on the performance of their respective duties provided for under this Act and the compliance of cities and urban municipalities to the provisions of this Act to Congress, specifically to the Senate Committee on Urban Planning, Housing and Resettlement, and the House of Representatives Committee on Housing and Urban Development, and Special Committee on Sustainable Development Goals.

SEC. 10. Implementing Rules and Regulations. - Within six (6) months since the effectivity of this Act, the Department of Human Settlements and Urban Development (DHSUD), in consultation with concerned national government agencies, metropolitan area authorities, local government units, civil society organizations, the private sector and the academe, shall promulgate the implementing rules and regulations for the effective implementation of this Act.

SEC. 11. Separability Clause. — If any provision of this Act is declared unconstitutional or otherwise invalid, the validity of the other provisions shall not be affected thereby.

SEC. 12. Repealing Clause. — All laws, decrees, orders, rules and regulations or parts thereof inconsistent with this Act are hereby repealed or modified accordingly.

SEC. 13. Effectivity. — This Act shall take effect after fifteen (15) days from its publication in the Official Gazette or in a newspaper of general circulation.

Approved,
