EXPLANATORY NOTE

One of the challenges faced by micro, small, and medium enterprises (MSMEs) is the lack of access to capital. Although financial services have been made more accessible today than they have been in previous decades, the volatility of MSMEs as a venture has led to a situation where banks are unwilling to lend to MSMEs. Given the foregoing, these circumstances have led many enterprising Filipinos to avail of the services of predatory loan sharks or “5-6” as it is commonly referred to: the name of such practice owes to the high amount of interest offered by said loan sharks.

The Department of Trade and Industry launched the Pondo sa Pagbabago at Pag-asaenso Program (P3 Program) in order to lure small borrowers away from loan sharks. This DTI program seeks to help underprivileged entrepreneurs and microenterprises by providing them with low-interest, quick-approval financing with minimal requirements.

The institutionalization of this program would be a dream come true for many probinsyanos who would want to be entrepreneurs and become businessmen. This program would also be a step towards poverty alleviation and economic empowerment. For our society to embrace economic independence amongst its citizens, it is vital that the State should provide the means for the free development of each, and the free development of all.

It is for these foregoing premises that the approval of this bill is earnestly sought.
