EXPLANATORY NOTE

The Constitution mandates that the State shall give priority to education science and technology, arts, culture, and sports to foster patriotism and nationalism, accelerate social progress, and promote total human liberation and development. It also directs that the State promote physical education and encourage sports programs, league competitions, and amateur sports, including training for international competitions, to foster self-discipline, teamwork, and excellence for the development of a healthy and alert citizenry.

Recognizing the vital role of the youth in nation-building, the proposed creation of the Bataan High School for Sports not only seeks to establish a school that promotes sports programs like any other secondary schools in the country. It seeks to elevate the level of sports consciousness among the youth by providing a general secondary curriculum combined with a special curriculum on sports.

Sports is said to help the youth become better contributors to society. Research shows that sports helps improve social interaction. It increases self-discipline and focus, and builds skills such as teamwork, leadership, and responsibility. It strengthens perseverance and leads to better coping skills, critical thinking, and application skills to meet challenges in life.

The Bataan High School for Sports will be a national high school that caters to the needs not only of the province and the region but all deserving students from across the country. It shall develop and hone the skills and competitiveness of able and athletically inclined students to prepare them into world-class sports competitors with suitable academic foundation. With the proximity and easy access of the New Clark City where sports facilities both for training and international competitions are ongoing development, establishing a High School for Sport in Balanga City is an ideal proposition.

Support for this bill is earnestly requested.
