HOUSE BILL NO. 4485

Introduced by Honorable Michael L. Romero

EXPLANATORY NOTE

In accordance to its mandate, the republic of the Philippines shall establish marketing networks and outlets, especially among and between processors and end-users, that will include the integration of local milk production with existing industrial milk plants geared towards the sufficient production of local milk for the needs of the people.

The State is very responsive of its mandate to strive for national self-sufficiency in milk and dairy products as a vital feature in the attainment of a self-reliant and independent economy in the provision of proper nutrition and the generation of more employment opportunities for the people.

This House Bill seeks to create an agency tasked to help the private sector accelerate the development and growth of the Philippine dairy industry under the essence of cooperatives-development in all stages of dairy production, processing, distribution, marketing, and other dairy-related activities, in such a way that market viability of livestock and dairy products shall be ensured, focusing on developing breeds adapted to Philippine society.

Thus, the early passage of this bill is earnestly requested.
