EIGHTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 4591

Introduced by **ANG PROBINSYANO**
Party-List Representative Alfred Delos Santos

**EXPLANATORY NOTE**

Due to the advancement of technology, it cannot be denied that the use of credit cards has become indispensable in making consumer credit readily available to all Filipinos. It allowed Filipinos to transact conveniently without the need to shell out cash, plan ahead purchases, and subsequently avail of advantageous rates in their purchases.

With this growth in credit card use, some Filipinos have been taken advantaged by malicious and nefarious groups by noting their credit card information and details and have used these cards for their own gain. Fraudsters can get hold of one’s personal information in many ways, from hacking retailers to buying one’s data on the dark web, a shady corner of the internet that’s not accessible via search engines like Google. Or, criminals can trick one into handing over your information through online scams.

This is why we need to introduce more measures to protect consumers who are availing these credit card services. While there are laws currently in place that already aim to protect the consumers, the growing number of people being victimized despite these measures shows the need to introduce further programs and practices that will allow the public to trust the banking system and the convenience of using credit cards.

It is for these foregoing premises that approval of this bill is earnestly sought.
