HOUSE BILL NO. 4594

Introduced by Representative Lucy Torres-Gomez

EXPLANATORY NOTE

The Philippine Constitution mandates the State to promote physical education and sports, to foster self-discipline, teamwork and excellence for the development of healthy and alert citizenry. In furtherance of this mandate there should be programs that will encourage the entire citizenry to participate in physical fitness and sports and excel on these programs because there are so many talents around who just need to be tapped and trained.

It is also observed that over the years, despite abundance in supposed good/potential athletes, the outcome of our athlete’s participation in international competitions like the ASEAN GAMES and the OLYMPIC GAMES have been dismal. The Philippines is always hungry for medals. We recognize the efforts and capabilities of our athletes but the sad reality is there is a perennial lack of funding in the training of our athletes and the lack of pool of adequately trained athletes.

This proposed bill seeks to find solution to this dilemma of Philippine sports by providing a structure for a truly integrated and comprehensive national sports program, linking grassroots sports promotion to elite sports development and encourage all local government officials to promote the development of sports in the countryside covering all barangays, towns, municipalities, cities and provinces. This is also to encourage and assist various National Sports Association to promote their respective sports at the grassroots level providing the necessary linkages with local government units.
Today what we have are school based Palarong Pambansa for public schools but it only allows participation of in-school athletes (students) in primary and secondary level. College and university students, out-of-school youths, graduates and professionals who can be source for physically mature and competitive athletes are not included. While we have the UAAP and NCAA for private colleges and universities, more often than not, sports is not a priority for the athletes from these collegiate leagues.

The Palarong Pambansa, the UAAP and the NCAA, only include sports that are regularly played in public schools. Other Olympic and Asian Games sports which have proven to give our country more medals in international competitions are not included in the program. Among these sports are billiards, bowling, fencing, weightlifting, shooting, rowing, and many more. The proposed Philippine National Games hopes to be a venue for scouting for potential athletes in various sports.

This Act hopes to institutionalize a truly comprehensive national grassroots sports program, that will harness the vast potentials of the citizenry in discovering and developing champion athletes who could excel in international competition, thus giving our country pride and international goodwill and addressing the long standing problems of Philippine sports in general. To achieve this, the direct involvement of LGUs is imperative.

HOUSE BILL NO. 4594

Introduced by Representative Lucy Torres-Gomez

AN ACT
INSTITUTIONALIZING A COMPREHENSIVE NATIONAL GRASSROOTS SPORTS DEVELOPMENT PROGRAM CENTERED IN THE PHILIPPINE NATIONAL GAMES

Be it enacted by the Senate and the House of Representatives of the Philippines in Congress assembled:

SECTION 1. Short Title. – This Act shall be known as the "Philippine National Games Act."

SEC. 2. Declaration of Policies. –

The State recognizes the vital role of the youth in nation-building and shall promote and protect the physical, moral, spiritual, intellectual and social well-being. It shall inculcate in the youth patriotism and nationalism and encourage their involvement in public and civic affairs.

The State also shall give priority to education, science and technology, arts, culture and sports to foster patriotism and nationalism, accelerate social progress, and promote total human liberation and development.

Further, the State shall promote physical education and encourages sports programs, league competitions and amateur sports, including
training for international competitions, to foster self-discipline, teamwork, and excellence for the development of a healthy and alert citizenry, and

Finally, all education institutions shall undertake regular sports activities throughout the country in cooperation with athletic clubs and other sectors.

SEC. 3. Objectives. –The objectives of the Philippine National Games are as follows:

(a) To provide the structure for a truly integrated and comprehensive national sports program linking grassroots sports promotion to elite sports development.

(b) To serve as the government’s premier national sports competition to be held once every two years.

(c) To encourage all local government officials to promote the development of sports in the countryside covering all barangays, towns, municipalities, cities and provinces.

(d) To encourage and assist various National Sports Association in promoting their respective sports at the grassroots level providing the necessary linkages with local government units.

(e) To encourage the entire citizenry to participate in physical fitness and sports activities in furtherance of the Philippine Constitution’s mandate for the State to promote physical education and sports, to foster self-discipline, teamwork and excellence for the development of a healthy and alert citizenry.

(f) To serve as the pinnacle of a unified sports promotion and development program, bringing together in harmony and solidarity all sectors in sports, public and private. The Palarong Pambansa, and other local sports competitions organised by the LGUs and/or the private sector, shall serve as “feeder” and preparatory program for the PNG.

SEC. 4. Rationale. - This Act is necessary to institutionalize a truly comprehensive national grassroots sports program, that will harness the vast potentials of the citizenry in discovering and developing champion
athletes who could excel in international competition, thus giving our
country pride and international goodwill. This Act is imperative as the
desired situation is not addressed by the Palarong Pambansa ("PP") or any
other sports programs now in place.

(a) The PP is run by the Department of Education, thus limiting
its coverage to in-school youth, trained and entered by schools
with no direct participation of the local government units and the
local elected officials

(b) The PP only allows participation of in-school athletes (students ) in primary and secondary level. College and university
students, out-of-school youths, graduates and professionals who
can be source for physically matured and competitive athletes are
not included.

(c) The PP program only includes sports that are regularly played
in public schools. Other Olympic and Asian Games sports which
have proven to give our country more medals in international
competitions are not included in the program. Among these sports
are billiards, bowling, fencing, weightlifting, shooting, rowing,
and many more.

(d) The PP program requires a selection of athletes to represent a
geographical region. The regional selection is headed by the
DepEd Regional Director, since the PP is a DepEd program. The
Governors, or Mayors and the provinces or cities they represent
are not directly involved. These local elected officials therefore
have no stake in the success or failure of their regional
team/delegation.

(e) The PP sports officiating officials as well as the competition
rules are devised and approved by the DepEd, with little or no
participation of the National Sports Associations, which are the
governing bodies of their respective sports in the country. These
NSAs are accredited by their International Sports Federations
which in turn govern the sport and their competitions worldwide.
SEC. 5. Definition of Terms. – As used in this Act, the following terms shall be understood to mean as follows:

(a) Grassroots Sports Development program refers to a system which encourages and compels local government units (provinces, cities, municipalities, barangays) and their officials to engage in sports activities that would identify, recruit and train home-grown athletes

(b) Elite Sports Development program refers to the functions and activities of National Sports Associations which are usually supported by the national government through the Philippine Sports Commission, in developing national athletes for and to represent the country in various international competitions
