EXPLANATORY NOTE

The quality of public education in the country highly depends on the qualifications and abilities of teachers. In order to attract and retain competent educators that would ensure quality education for our youth, we must promote and improve the social and economic status of public school teachers.

Unfortunately, public school teachers are among the most underpaid and overworked workers today. In some cases, teachers even have to bear the expenses for lesson preparation due to lack of instructional materials in schools. Based on reports, the accumulated debt of public school teachers across the country has reached a staggering P300 billion. This shows the urgent need to give public school teachers their long-overdue wage hike.

This bill seeks to raise the minimum salary grade level of teachers from the current Salary Grade 11 to 19. This is in recognition of their dedication in providing quality education to our youth amid their challenging working and living situations. By providing them decent salaries, this will bring dignity to their noble profession and motivate them to strive for excellence as they mold our children's future.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
